11. Contractor further covenants and agrees that he/she, his/her employees, assistants or agents will refrain from crossing a homeowner's property in front or back of a house to make any pickups, unless expressly permitted by the homeowner on either side and that normal procedure provides that the contractor, his/her employees, agents or assistants will proceed to the location on each property owner's premises where the refuse is stored and will remove the same directly back to the street where the collection vehicle is located without crossing the property of any adjacent or nearby property owner.

13. Contractor covenants and agrees with the Village that in the event a pickup should be missed at any time, for reasons not the responsibility of the Village, or he/she should fail to remove all the household trash, recycling, and yard debris available for pickup, the sum of five (\$5.00) dollars per home collection missed will be deducted from that month's payment by the Village, as liquidated damages, forfeited by the Contractor.

Contractor shall pay all taxes and other expenses required in his/her business, and it is clearly understood and agreed that the Contractor is an independent contractor operating strictly on his/her own and in no sense is he/she to be considered as an employee of the Village of Pinehurst.
15. In the event that landfill disposal fees for household trash at the Moore County landfill or any landfill succeeding the Moore County landfill increase above the annual C.P.I. amount, the cost per home shall be adjusted in a manner agreeable to both parties of the contract so that the increased cost above the annual C.P.I. amount realized by the contractor as a result of this and only this occurrence can be passed on to the Village.
16. Contractor must comply with all OSHA standards and requirements, where applicable. Contractor must comply with all applicable federal, state, and local laws, rules and regulations.
17. Inasmuch as the Village Council of the Village of Pinehurst has the responsibility, as a governmental function, to collect and dispose of household trash, recycling, and yard debris accumulated by the citizens, residents and property owners of the Village; and because of its responsibility to protect the health, safety, morals and general welfare of the citizens, residents and property owners of the Village, it is necessary that the Village Council see to it that this contract is performed by the contractor in an efficient and effective manner; and in the event, the Contractor should fail to so perform said contract, then, and in such event,

She covered other significant items included in the FY 2018 budget including capital items. Ms. Hawkins explained staff posted this topic on Open Village Hall for feedback. The topic received 30 comments and staff shared these full results with the Village Council.

Public Comments:

- John Strickland said he appreciates the hard work that goes into this comprehensive document. He noted past discussion regarding the community center partnering with Southern Pines and Aberdeen or the YMCA and he encouraged continuing this. He also suggested to look at the long term budget and pressures that will come along with the community center in the future. He asked for clarification if this would be combined or a separate entity from the cultural center that has also been discussed. Mayor Fiorillo explained the efforts made with the YMCA and other discussions held with the three towns. She also said the maintenance is built into the five year budget including the maintenance, staffing, and other needs. The Mayor also confirmed that a cultural center is not being combined into the community center. Councilmember Bouldry explained his conversations with Audrey Moriarty regarding a cultural center. Councilmember Cashion suggested partnering with the three towns and the college for the cultural center.

suggested to have the Community Center reviewed again to include community interest in supporting it and the location options.

- John Taylor said the staff did a nice job on this budget. Said almost 2% of the budget is going towards the plan for the Community Center and he asked if this is for certain going forward. The Mayor noted this has been a major project on the radar for about 10 years. Mr. Taylor asked what other actions would need to be taken by Council to make the community center actually happen. He also asked if there are any zoning issues.

8. Motion to Adjourn the Public Hearing and Re-Enter the Regular Meeting.

Upon a motion by Councilmember Cashion seconded by Councilmember Bouldry, Council approved to adjourn the public hearing and re-enter the regular meeting by a vote of 5-0.

10. Q3 Update on the Status of the FY 2017 Strategic Operating Plan Implementation.

Assistant Village Manager Natalie Hawkins presented the Q3 update on the status of the implementation of the FY 2017 Strategic Operating Plan (SOP) Initiative Action Plans (IAPs). Ms. Hawkins explained the majority of Initiative Action Plans were on schedule at March 31st but in some instances, circumstances such as inadequate staff capacity or slow response times from outside parties have prevented staff from implementing the FY 2017 Initiative Action Plans as originally planned, which may result in the Village not completing them in FY 2017.

11. Consider a contract for Legal Services for FY 2018.

John Frye, Financial Services Director, explained the proposed contract for legal services with Van Camp, Meachum, & Newman, PLLC for FY 2018 is ready for Council's consideration. He said the functional terms are unchanged from the previous year. Mr. Frye explained what these proposed changes could do to the Village of Pinehurst. Upon a motion by Councilmember Berggren, seconded by Councilmember Bouldry, Council unanimously authorized the Mayor or her designee to execute the contract Resolution 17-15 opposing Senate Bill 126 and House Bill 522 regarding the proposed change in annual distribution of sales and use taxes levied by the State of North Carolina by a vote of 5-0. Mr. Frye explained another bill being proposed, House Bill 900.

14. Other Business.

- Mayor Fiorillo explained that on May 9 revisions to the Village Manager's contract were discussed in closed session and they now need to make a motion in public to execute the new contract. Type of Change: New Addition ☐ Revision ☒ Ordinance Section (s): 8.6 SR-2, 8.6 SR-3, 10.2

Current Text:

8.6 SR-2 (4) The minimum size for a townhouse or cluster dwelling unit is 1,500 square feet.

8.6 SR-3 (1) The minimum size for a multi-family dwelling is 1,500 square feet.

There is no current text for the new definition in section 10.2 that is proposed

Proposed Text (attach additional sheets if necessary):

8.6 SR-2 (4) The minimum size for a townhouse or cluster dwelling unit is 1,500 heated square feet.

8.6 SR-3 (1) The minimum size for a multi-family dwelling is 1,500 heated square feet.

See attachment for new definition for section 10.2. Definition of term "Heated Square Feet"

Reason for requested change (attach additional sheets if necessary):

Adding the word "heated" to the multi-family minimum size statements will prevent any confusion as to the dwelling unit size for multi-family units, add clarity to the requirement and be consistent with the requirement for single family units in the PDO which presently specify minimum dwelling unit size in terms of "heated square feet." Adding the definition of "Heated Square Feet" to section 10.2 will further clarify the requirement.

PLANNING AND INSPECTIONS DEPARTMENT STAFF REPORT

To: Mayor Fiorillo and Village Council

From: Bruce Gould, Principal Planner

Cc: Jeff Sanborn, Village Manager
Lauren Craig, Village Clerk
Kevin Reed, Director of Planning and Inspections

Date: June 22, 2017

Subject: **Public Hearing and Staff Report and Statement of Text Amendment Consistency with the 2010 Comprehensive Long-Range Village Plan. Heated Square Footage for Multi-Family Dwelling Units.**

Request

John E. Farrell is proposing these text amendments to the Pinehurst Development Ordinance (PDO). This amendment would add a definition for “Heated Square Feet” and change the way the minimum dwelling size for Townhouse/Cluster Dwelling and Multi-Family Dwellings is calculated by requiring the 1,500 square foot dwelling size to be in heated square feet. Currently the PDO requires these dwelling unit types are to be 1,500 square feet but not heated.

This proposed amendment as drafted by the applicant would add the definition of Heated Square Feet as follows and apply it to townhouse and cluster dwellings as well as multi-family dwellings:

Heated Square Feet of a dwelling unit, also known as “heated living area” or heated square footage” is the space that is intended for human occupancy and is:

- 1. Heated by a conventional heating system or systems that are permanently installed in the dwelling which generates heat sufficient to make the space suitable for year-round occupancy.*
-

2. *Finished, with walls, floors and ceilings of materials generally accepted for interior construction. And*
3. *Directly accessible from other living area through a door or by a heated hallway or stairway.*

The applicant has indicated the purpose of this amendment is as follows:

Adding the word “heated” to the multi-family minimum size statements will prevent any confusion as to the dwelling unit size for multi-family units, add clarity to the requirement and be consistent with the requirement for single family units in the PDO which presently specify minimum dwelling unit size in terms of “heated square feet”. Adding the definition of “Heated Square Feet” to section 10.2 will further clarify the requirement.

As staff and the Planning and Zoning Board reviewed the proposal a few concerns came to light with the definition, but not with applying a consistent standard for how dwelling unit size is measured. One scenario was if the definition of heated square footage was applied it would not allow for conditioned (heated and cooled) space that is not finished out such as an unfinished basement or bonus room could not be counted. It is common in speculative construction to leave these spaces unfinished until a purchaser decides how this space is to be finished out. Also, if you have conditioned space above a garage but the access is through the unconditioned garage the conditioned space above the garage could not be counted toward meeting the minimum.

Another area of concern that was brought to light by this proposed amendment but not necessarily related to the amendment was the existing requirement that all multi-family units must be a minimum of 1,500 square feet, be it heated or not. The Planning and Zoning Board was concerned that this number in essence excluded one and two bedroom units or smaller three bedroom units from the market.

Page 3 of the 2010 Village of Pinehurst Comprehensive Plan indicates that the Village of Pinehurst should address community needs in the most efficient and cost-effective manner. Having a uniform means in which dwelling size is measured would meet this objective and provide clarity to developers, elected and appointed officials and the public.

The proposed text amendment will be in accordance with the 2010 Comprehensive Plan. This amendment is consistent with the above mentioned goal outlined in the 2010 Comprehensive Long Range Plan. Achieving goals in accordance with the Comprehensive Plan is considered reasonable and in the best interest of the public.

Recommendation

The P&Z Board after discussion recommended a modified definition of heated square feet from what the applicant submitted be applied to single family homes and also be added to townhouse, cluster dwelling and multi-family dwellings. That definition reads as follows:

“Heated square feet of a dwelling unit is space that is intended for occupancy that is heated by a conventional heating system or systems that are permanently installed.”

The Planning and Zoning Board also asked that the Village Council initiate them to study the issue of requiring a minimum size of 1,500 square feet heated or unheated for all dwellings in the village.
