**VILLAGE OF PINEHURST
BUDGET AMENDMENTS APPROVED BY BUDGET OFFICER
FOR THE PERIOD JANUARY 16 - MARCH 15, 2017**

Under Village of Pinehurst Ordinance #16-09, the Village Council grants the Budget Officer, or Village Manager, the ability to transfer appropriations under specific conditions. These conditions allow transfers of up to \$10,000 between departments (including contingency) of the same fund for the FY 2017 Budget. The Budget Officer may **not** transfer monies between funds at any time.

According to Section 159-15 of The Local Government Budget and Fiscal Control Act, "any such transfers shall be reported to the governing board at its next regular meeting and shall be entered in the minutes". Listed below are the amendments authorized by the Budget Officer for the period specified above.

Note: Since appropriations are made at the department level, line item adjustments within the same department may be made without limit and do not require a report since they do not actually amend the adopted budget ordinance.

Jeff Sanborn
The Village of Pinehurst
395 Magnolia Rd.
Pinehurst, NC 28374

Dear Jeff,

The Pinehurst Concours d'Elegance continues to develop into a premier event for the Pinehurst area. Year four produced growth in ticket sales, sponsorships and overall awareness, however the event is still focused on growing sponsorship revenues to offset increasing operations costs for this event. Historically the premier Concours events like Pebble Beach and Amelia Island have taken several years to reach a point where the events can sustain themselves with ticket sales and sponsorships. In addition, as the events gained stature, add-on events started to materialize, which have helped these Concours grow to the mega-events they are today. Local economic impact for these events has reached multimillion dollar levels, and the local economic impact is estimated at over 4 million dollars annually.

The goals for 2017 include:

- Significant growth of event corporate sponsorships & ticket sales
- Enhanced concert entertainment with a new target demographic
- Enhanced National sales and marketing strategy
- Continued support to the military through contributions to the USO of North Carolina

The Opportunity:

The Pinehurst Concours d'Elegance has the potential for rapid growth the future. Similar events with the same model are thriving and continue to break records for attendance and revenues each year. This event continues to offer a new demographic customer for the Pinehurst community and unique opportunities for strong media promotion/exposure outside of the golf world. Partnering with the Concours provides the Village of Pinehurst with a "vehicle" to drive added exposure to the Village, revenues to area merchants and a community-wide economic impact that could rival the major golf championships that have been held in Pinehurst. This continued partnership support is critical to the success and long-term association the Concours d'Elegance has within the Village of Pinehurst community.

The Village of Pinehurst In-kind support will include:

Village facility use:

- Fair Barn – May 2-8, 2017
- Harness Track ½ Mile Infield – May 3-8, 2017
- Polo Field 1 Mile Infield – May 5-7, 2017
- Tufts Park – May 5, 2017
- Village of Pinehurst (Village Hall) will serve as a community ticket sales outlet from November 25, 2017 to May 5, 2017
- Direct promotion of the Pinehurst Concours d'Elegance through:
 - Website Promotion
 - Direct mail
 - Visitor Center
 - Pinehurst Merchant promotions (if applicable)

The Pinehurst Concours d'Elegance and its operators will provide:

- Required facility temporary use applications and permits
- Commercial General Liability Insurance at a minimum amount of \$1,000,000 per occurrence. (Certificate of Insurance to be supplied to VOP)
- Marketing and promotional recognition on selected event materials for the event to include banners, signs, flyers, brochures, etc. in accordance with the Village of Pinehurst Logo use guidelines.
- Monthly communications regarding the event planning and operations
- A mutually agreed upon number of tickets and hospitality access credentials for VOP internal use during the Concours d'Elegance events.

We are hopeful that the members of the Village Council will vote to continue to support this unique event in 2017 and for subsequent years. We look forward to your favorable response.

Sincerely,

Jay Howard, President
Pinehurst Concours d'Elegance

Ms. Claire L. Berggren, Councilmember
Mr. John Bouldry, Councilmember
Mr. John R. Cashion, Mayor Pro-Tem
Mr. Jeffrey M. Sanborn, Village Manager
Ms. Lauren M. Craig, Village Clerk

Excused absence: Mr. Clark H. Campbell, Councilmember

And approximately 30 attendees, including 6 staff and 1 press.

1. Call to Order.

Mayor Nancy Roy Fiorillo called the meeting to order.

2. Presentation by Bob Klug and Gene Maples on the Midland Road Corridor Study.

Council welcomed Gene Maples, a resident of Southern Pines ETJ, to give a presentation on alternative options to the Midland Road Corridor Study. Mr. Maples explained he and his group are trying to help people think as creatively as possible regarding the proposed Midland Road corridor plan. Mr. Maples suggested looking at the solutions in phases and to consider things such as lowering the speed limit along Midland Road which would not cost anything out of pocket beyond street signs. Mr. Maples gave a presentation, using Google Earth, to show the entire corridor from Southern Pines to Pinehurst and explained where his committee is proposing alternatives from the original corridor plan.

Audience member Rick Finnin a member and resident of Pinehurst No. 9 explained he generally agrees with the concept regarding this being an iconic road and he would be in favor of a traffic light at Carolina Eye Clinic. He explained he is a cyclist and travels Midland Road on his bike and he suggested widening the sides of the roads along Midland Road.

Audience member Jason Kaufman noted he appreciates the work that Gene Maples did on this. He noted he is working on the Western Connector proposal and it has a lack of creativity. He said citizens are having to do a lot of the alternative studies.

Audience member Jim Kennedy explained he served on the committee with Gene and bought property in this area in the mid-90s. He professionally studied highways and Midland Road caught his eye when they first came to this area.

Audience member Kimberly Daniels Taws explained there are a lot of people who care about this area and she appreciates Council going tree by tree and preserving the look.

Audience member Cindy Lang of Midland County Club explained getting out of her neighborhood onto Midland Road is difficult and there has been a fatality at their entrance. She suggested getting the speed limit lowered on Midland Road and take down just 5-6 trees for better visuals at the entrance to Midland Country Club.

**MINUTES OF
VILLAGE COUNCIL WORK SESSION
FEBRUARY 14, 2017**

Audience member Laurie Wiles explained in the 6 year period between 2010 and 2015 there were 157 crashes on Midland Road and less than half resulted in injuries. 33 trees were struck in the 6 year period and there was one fatality. She explained a similar issue that occurred in New Jersey that was not solved correctly due to trees being a natural way to stop accidents by slowing people down. She said taking down trees is not the answer and suggested installing street lamps.

Councilmember Bouldry thanked Gene Maples for his presentation and asked about the next steps. Mr. Maples suggested for the Council to come up with a priority list while the Southern Pines Town Council also does the same before discussing with NC DOT.

Audience member Bob Klug explained this study was started because Gene Maples had angst with NC DOT regarding the Walker Station intersection. Mr. Klug suggested slowing the process and the speed and see what happens in a few years.

Audience member Rick Finnin asked if a special designation of this road would do anything for the NC DOT. Councilmember Berggren said Midland Road is marketed as the "Fifth Avenue of Golf" and she will do anything to keep this in tact with integrity. Ms. Berggren gave her perspective on the accidents and thinks the phased approach, reducing the speed limit and lighting are good ideas and the clearance of 500 feet should be negotiable.

Councilmember Cashion said any turns onto Midland should be right turns only because it will give the best line of sight.

Audience member Molly Rowell suggested making Midland Road a special designated historic district.

Audience member Judy Davis said in Virginia they had byways which were historic roads and she suggested looking into this as an opportunity.

3. Discussion on downtown parking in the Village of Pinehurst.

Village Manager Jeff Sanborn explained Council and staff have received complaints about downtown parking and have been looking into options to address this. Mr. Sanborn shared information gathered by the Police Department regarding available parking spaces in each of the designated parking areas over a period of time to give data to the situation. Mr. Sanborn noted the Village turned away from the two hour parking approach a few years ago and gave data regarding citations written from 2004-2007 and fees collected. He explained staff has considered examining options with Citizens on Patrol but we are limited on staff capacity. Mr. Sanborn also explained a solution called The Barnacle which can be affixed to a windshield and helps collect payment more effectively. Another suggestion is to increase the number of handicap designated spaces. Assistant Village Manager Natalie Hawkins explained how the "Put the Customer First" program was implemented and communicated as a voluntary program. Council determined for Councilmember Berggren to talk to the Pinehurst Business Partners.

Audience member Bob Barmore said you cannot rely on the business owners to self-police and he has been championing something to be done. He said the parking is a big issue for customers and we need to do something for the people who don't park in the appropriate locations.

4. Presentation of Quarterly Financial Statements for the Quarter Ended December 31, 2016

John Frye, Financial Services Director, presented the financial statements for the six months ended December 31, 2016 for the Village of Pinehurst. Mr. Frye noted the Village remains in a very good financial position through the first half of the fiscal year and revenues exceeded expenditures by a larger margin than anticipated. Operating expenses are below the expected levels and revenue outlook is on target which will position the Village well to carry out objectives for the FY 2017 Strategic Operating Plan. Mr. Frye covered details in revenues, expenditures, and the general financial outlook for the Village of Pinehurst.

He also projected that the fund balance will increase to \$9,444,000 by the close of this fiscal year which will leave the ending fund balance for the General Fund at 49.6% of expenditures. Mr. Frye also explained the reasons for Council to consider a mid-year budget adjustment and the details that the ordinance includes. **395 MAGNOLIA ROAD
ASSEMBLY HALL
PINEHURST, NORTH CAROLINA
4:30 P.M.**

The Pinehurst Village Council held a Special Meeting at 4:30 p.m., Tuesday, February 21, 2017 in the Assembly Hall of Pinehurst Village Hall, 395 Magnolia Road, Pinehurst, North Carolina. The following were in attendance:

Ms. Nancy Roy Fiorillo, Mayor
Ms. Claire L. Berggren, Councilmember
Mr. Clark H. Campbell, Councilmember
Mr. John Bouldry, Councilmember
Mr. John R. Cashion, Mayor Pro-Tem
Mr. Jeffrey M. Sanborn, Village Manager
Ms. Lauren M. Craig, Village Clerk

And approximately 48 attendees, including 5 staff and 1 press.

1. Call to Order.

Mayor Nancy Roy Fiorillo called the meeting to order.

2. Discussion and public comments on the proposed Western Connector.

Village Manager Jeff Sanborn gave a presentation on the proposed Western Connector. He explained the purpose of this meeting is to solicit input on a very important transportation project. Mr. Sanborn shared the connector was conceived over 25 years ago to alleviate potential future growth and traffic on Hwy 5 and has been included in plans since. Mr. Sanborn showed average daily traffic numbers on Hwy 5 near the railroad overpass at 2014 and 2040 and what Level of Service (LOS) we would be at depending on the solution. Mr. Sanborn also shared information about the growth projections and the analysis that was done to figure out how these projections were formulated. Mr. Sanborn explained this project would have to compete for funding and once that happens, NC DOT would negotiate environmental impacts, costs, and property that this would affect. Mr. Sanborn shared the following timeline: 2017 to adopt MCTP, 20122 to compete for funding, 2030 for right of way acquisition, and 2035 would be the earliest expected the road would be opening. Mr. Sanborn also shared the current results from the Open Village Hall topic and noted the topic will be left up longer than planned. Mr. Sanborn summarized that staff believes Council should endorse the retention of the Western Connector in Village plans and inclusion of the Western Connector in the Moore County Comprehensive Transportation Plan.

Audience member Flint Long asked about the urgency of this project that was conveyed.

Audience member John Taylor said the county has to adopt a transportation plan whether it includes this project or not and he recalls from the last transportation meeting numbers that more than half of the projected growth that the county is projected was east of 15/501 and North of Midland Road. He asked what percentage of the traffic on Hwy 5 is designated as local traffic and he commented about the number of homes projected in Foxfire. Pat Molamphy said there is specific information based on cellular data that shows either 1 in 5 or 1 in 6 of the vehicles traveling along Hwy 5 do not terminate on Hwy 5.

Audience member Debbie Lalor said regarding the Village being almost fully built out that adding apartment complexes of four floors does expand the density and she asked why improving Linden Road going towards the backside of Hwy 5 wouldn't be an option.

**MINUTES OF
VILLAGE COUNCIL SPECIAL MEETING
FEBRUARY 21, 2017**

Bruce Geddes and Jason Kaufman of "Grow Moore Smart" gave a presentation opposing the Western Connector. They explained their view that the NC DOT projections are overinflated and oversubscribed. Mr. Geddes explained the great quality of life and the vision for West Pinehurst. He noted the topic of eminent domain has not been discussed in Moore County Transportation Committee meetings or mentioned by the NC DOT. He shared information regarding each TAZ and available property for the projected development. They shared models showing traffic patterns in the surrounding area. They noted the local agenda doesn't have to align with NCDOT and TARPO and should be removed from the transportation plan. They suggested the following as solutions: remove the Western Corridor from the transportation plan and to do inexpensive alternatives first and see the results. They also suggested working with the railroad to improve the traffic flow on Hwy 5 and offer other improvements to the traffic circle, Morganton, NC5, US 15/501, US 1, and throughout Moore County. Council held a discussion about the presentation.

Laurie Wiles shared a story about the history of Frederick Law Olmsted and James Tufts. She said this Western Connector cuts through a large portion of that land that James Tufts had laid out.

George Lucas who has property that comes out on Linden Road and Foxfire said mass transit is needed and is a simple fix by buying buses. He asks that the Council reject the idea of a Western Connector because it does not serve a purpose. He said no one has talked to the railroads because commuter trains could be put in.

Diane Lucas said this is wrong because we would be taking the breeding ground of the redheaded woodpeckers. Laurie Wiles gave information about this unique area of long leaf pines and its habitat to wildlife.

Carl Hoover said the important argument is the zoning and he assumes there would be a natural increase of the Village limits. He suggested the social ecosystem and the boutique feel of Pinehurst are important and an increase of density would hurt this. He suggested looking at other case studies to offer valid input here.

Tom Pashley, President of Pinehurst Resort and CC, stated that on behalf of the resort, they have a concern about Hwy 5 and Morganton and these roads are very important to the resort. He suggested they be involved in the decision if it will affect the traffic and experience along these roads.

Earl Ingram said he is Pinehurst's friendly neighbor. He explained his involvement since October 1996 and he said it seems we have come full circle since that time. He said it was identified back then that the traffic was local traffic not thru traffic and the local traffic has only increased in this area. He suggested pushing for more turn lanes and accelerated improvements of the traffic circle to help the congestion. He also believes the transportation plan can move forward without the Western Connector.

Harry Huberth reiterated the point this is a huge decision to make and he said the data is flawed and is not good data for decisions. He said some of the development on the books is no longer going to be developed in this economy.

Larry Fenton said Hwy 5 and Morganton are being used to get to businesses and to avoid the traffic circle. He suggested the right lane on Highway 211 going toward the traffic circle is useless and should be used to get people onto 15-501 South directly.

Jeff Sanborn said the traffic circle is related to many of the traffic issues and he said to date, the most effective alternative for the traffic circle will leave us in 2025 with traffic conditions that are like today because of the projected growth.

Collett Kolinski of Lake Pinehurst said she has been here 30 years and the traffic circle has already been improved once. She said not to mess with the traffic circle or residents would really push back.

**MINUTES OF
VILLAGE COUNCIL SPECIAL MEETING
FEBRUARY 21, 2017**

Mike McCue, Mayor of Foxfire Village, said the Council in Foxfire is in favor of low density development because they think that's their niche and they have a new land use plan to support low density. He said his number one priority of the Western Connector is to not widen Hoffman and Roseland Roads and he would be against the bypass being put through Foxfire Village. He shared the current Council would be most interested in talking about zoning and land use with the county and Pinehurst.
