**VILLAGE COUNCIL
MINUTES FOR REGULAR MEETING OF FEBRUARY 8, 2022
ASSEMBLY HALL
395 MAGNOLIA ROAD
PINEHURST, NORTH CAROLINA
4:30 PM**

The Pinehurst Village Council held a Regular Meeting at 4:30 p.m., Tuesday, February 8, 2022 in the Assembly Hall of Pinehurst Village Hall, 395 Magnolia Road, Pinehurst, North Carolina. The following attended:

Mr. John C. Strickland, Mayor
Mr. Patrick Pizzella, Mayor Pro Tem
Ms. Lydia Boesch, Councilmember
Mr. Jeffrey Morgan, Councilmember
Ms. Jane Hogeman, Councilmember
Mr. Jeffrey M. Sanborn, Village Manager
Ms. Kelly Chance, Village Clerk

In addition, approximately 37 attendees, including 6 staff and 1 press.

1. Call to Order.

Mayor Strickland called the Village Council meeting to order.

2. Reports:

Village Manager

- Mr. Jeff Sanborn reported there has been a fraud investigation in the community in which identities have been stolen. This is centered around the TD Bank. He reported TD Bank apparently offered incentives for people to open new accounts and some enterprising evildoers out there got a hold of a bunch of identities. He stated the FBI is working on this and it appears that most of the activity ran through servers and New Mexico and Texas and maybe other states. He advised the community to be aware of advertisements and offers that ask for information.
- Mr. Sanborn stated there is still a large amount of yard debris awaiting pick-up, but we are working quickly to pick up the remaining amounts.

Village Council

- Mayor Strickland reported we need to continue to be safe during this COVID pandemic and continue to use caution as we begin to gather more. He stated he and Council Pizzella attended the regular meeting of the Moore County Partners in Progress meeting. It was announced during this meeting that they assisted Robbins in obtaining a grant that will refurbish and create a furniture business. They reported this would create about 60 jobs when the facility is fully operational.
- Councilmember Boesch had nothing to report.
- Councilmember Hogeman reported Council participated in three-days of training with the UNC School of Government. She stated she acknowledges that our staff and Village Manager is doing a great job because during the meetings, she felt very prepared, and the information provided was all familiar. She expressed her appreciation of the Village Manager for his leadership over the years and to the staff.
- Councilmember Morgan reported he is thankful for the Village Manager and staff as well. He noted that during COVID, the

Village lost staff but was able to keep operating at 100%. Mr. Morgan stated he attended, on January 26th, the Triangle J Council of Governments Delegate meeting. He noted this is a group that gets together with different government delegates from across the area, to support each other, share ideas, and update on what the different areas are working on.

- Mayor Pro Tem Pizzella had nothing to report.

3. Motion to Approve Consent Agenda.

All items listed below are considered routine or have been discussed at length in previous meetings and will be enacted by one motion. No separate discussion will be held unless requested by a member of the Village Council.

- Approval of Village Council Meeting Minutes.
 - January 25, 2022 Council Regular Meeting
 - January 25, 2022 Council Work Session

End of Consent Agenda.

Upon a motion by Councilmember Hogeman, seconded by Councilmember Morgan, Council unanimously approved the Consent agenda by a vote of 5-0.

4. Presentation of Resolution #21-29 Honoring the Service of Ms. Judy Davis

Mayor Strickland presented Resolution #21-29, honoring the service of Ms. Judy Davis for her service as Mayor Pro Tem from December 2019 to November 2021, as Treasurer from November 2017 to December 2019, and as a Council Member in total from November 2017 to December 2021. He noted her contributions to the development of the Village Place, the 2019 Comprehensive Plan, the Canon Park Community Center, and the West Pinehurst Park Master Plan. Mayor Strickland stated a copy of this resolution will be spread upon the permanent minutes of the Village of Pinehurst, and a copy thereof, duly executed by the Mayor and Village Clerk.

Ms. Davis stated that the issues she dealt with during her service was nothing what she thought it would be. She stated she loves Pinehurst, and it is absolutely a special place to live. She noted it is such a welcoming community and it has been an honor and a privilege to serve each citizen in this community. She stated it has been great to work with the incredible staff and she is proud that Pinehurst is one of the few communities that has a five-year-plan for financial outlook. Ms. Davis also thanked her colleagues, Councilmember Hogeman, Councilmember Boesch, and former Councilmember Drum for the opportunity she had to work with them.

5. Presentation of Resolution #21-30 Honoring the Service of Mr. Kevin Drum

Councilmember Boesch presented Resolution #21-30, honoring the service of Mr. Kevin Drum for his service as Council Member from November 2017 to November 2021. She noted his contributions as a member of the library working group that recommended the library needs assessment, which facilitated the asset and service transfer agreement. Councilmember Boesch stated Mr. Drum was instrumental in the negotiations for the USGA Golf House and Pinehurst Resort Hotel. She noted he actively participated in the development of the 2019 Comprehensive Plan, the Canon Park Community Center, the West Pinehurst Park Master Plan, and the development of the Village Place and Pinehurst South Small Area Plans.

The Resolution declares a copy of this resolution will be spread upon the permanent minutes of the Village of Pinehurst, and a copy thereof, duly executed by the Mayor and Village Clerk.

Mr. Drum stated it has been an honor to serve these four years. He stated he is proud that Council passed the first Transportation Plan and the 2019 Comprehensive Plan. Mr. Drum noted he knows his dad is looking down and is proud that we got the USGA here, and that we are the home of golf. He stated he worked hard for transparency, and he thanked the citizens for a front row seat to work with the best staff in North Carolina. Mr. Drum noted that basically, the staff did all that see, and these people are the unsung heroes. He said the people in this building work every day and are accomplishing fantastic goals. He stated he wanted to dedicate his resolution of honor to the staff.

Mr. Drum stated the four years he spent working on transparency will continue with an organization he created, North Carolina

Citizens. He noted this organization works to ensure transparent government and it is going to be a big part of his life as he moves into this second chapter.

6. Motion to Recess Regular Meeting and Enter Public Hearing No. 1

Upon a motion by Councilmember Boesch, seconded by Mayor Pro Tem Pizzella, Council unanimously approved to recess the Regular Meeting and enter Public Hearing No. 1 – Development Moratorium Extension by a vote of 5-0.

7. Public Hearing No. 1 Development Moratorium Extension

Village Manager Jeff Sanborn stated this is hearing to consider the proposed extension of the moratorium that we currently have in place for the Village Place Rattlesnake Trail area and Pinehurst South area. This Public Hearing is being held to provide our members of the public the opportunity to participate in this process.

Planning and Inspections Director Darryn Burich stated the purpose of this public hearing is to hear comments on extending the moratorium on real estate development activity in Village Place and Pinehurst South to allow time to adopt plans and amend the zoning ordinance as needed to implement the plans. He stated the final plans and code updates will not be developed by the time the moratorium expires on February 8, thus staff is proposing to extend the moratorium an additional 120 days from the upcoming expiration date to June 8, 2022. The moratorium may be terminated earlier if the work is completed prior to the proposed extension deadline.

Mayor Strickland reminded the Council and the public that this topic was discussed at the previous meeting, and it was determined there was a need to make this extension 120 days. He opened the floor to public comments.

Debbie Lalor, 80 Azalea Road, asked Mr. Burich to clarify what the process will be over the next 120 days following whenever the plan may be adopted. She asked what the process is by which changes get adopted into the zoning code and into the PDO. Ms. Lalor voiced her concern that there will be a window of opportunity between the adoption of the plan and the zoning ordinance approval, during which time developers could slide proposals in and get themselves on the books somehow.

Mr. Burich stated the process is still to be determined. The next step is to look at the small area plans and determine for certain this is what we want to do. When we come to a consensus that the concepts laid out are the plans we want, then we follow up with the PDO updates that would need to occur. Following this the next step would be to hold public hearings at the planning and zoning board level and then at the Village Council again.

Mayor Strickland introduced the second speaker as Jack Farrell, 21 Grey Abbey. Mr. Farrell stated he feels it is optimistic to complete this and feels the real work will be in developing the form-based codes and the changes to the PDO. He stated he has spent the last few months learning about form-based codes and notes it is a very complex subject. He stated it took over two years to develop the new HPC guidelines a few years ago and it had a lot of characteristics of form-based coding, visual representation of what you want it to look like, and so forth. So, unlike that effort, I think maybe a nine-month effort would be more realistic. He stated we need to get the process right going forward and he is concerned the process in the past has given less attention to the citizens and their requirements than it should. Thus, going forward, he stated we need to make sure we are including the citizens in the process.

Mayor asked if there were any other public members who wish to speak that had not signed up. Mr. John Webster, 140 West McKenzie, stated the basis of this plan is not agreeable to the residents. He would like to see us look at spending a year on this so we can take our time.

8. Motion to adjourn Public Hearing No. 1 and Re-Enter Regular Meeting

Upon a motion by Councilmember Boesch, seconded by Mayor Pro Tem Pizzella, Council unanimously approved to adjourn Public Hearing No. 1 and Re-enter the regular meeting by a vote of 5-0.

9. Discuss and Consider Ordinance #22-01 Extending Moratorium on Real Estate Development Areas of Village Place and

Pinehurst South

Mr. Burich stated staff is continuing to move this process and forward and they are requesting Council approve to extend the Moratorium for 120 days.

Upon a motion by Councilmember Hogeman, seconded by Mayor Pro Tem Pizzella, Council unanimously approved Ordinance 22-01 extending a Moratorium on Real Estate Development (Small Plan Focus Areas), attached as "Exhibit D," imposed by Ordinance 21-03 on February 10, 2021, and extended by Ordinance 21-15 on October 26, 2021, for an additional one-hundred-twenty-day period from the date of expiration, thus, to expire on June 8, 2022.

10. Presentation of Financial Statements for the Quarter ended December 31, 2021.

Brooke Hunter, Finance Director, presented the quarterly financial statements for the six months ended December 31, 2021. She stated the Village remains in a good financial position through the first half of the fiscal year. Revenues exceeded expenditures by a larger margin than anticipated in our forecast for the first two quarters. In addition, our operating expenditures are below expected levels and our revenue outlook is on target. These results should position us well to carry out the objectives outlined in the FY 2022 Strategic Operating Plan.

Ms. Hunter stated the Village's General Fund is showing \$7.2 million in income for the first six months of the year, which is higher than the \$5.6 million the prior year. The Village budgeted for revenues to exceed expenditures by roughly \$2.3 million for the first two quarters. Over \$4.2 million was encumbered by December 31, which means the funds were committed for a particular purpose and a purchase order or contract was signed, but the funds were not yet paid.

Ms. Hunter reported fund balance in the General Fund is currently 83% of budgeted expenditures, which is greater than the 74% level seen the previous year on December 31. The American Rescue Plan Act Special Revenue Fund is being used to track the use of the Village's Federal allocation in accordance with US Treasury guidance. The first half of the Village's allocation was received in the first quarter totaling \$2,648,000.

Ms. Hunter stated the Village's total cash and investment balances increased by \$6,385,000, or 43.5%, compared with the previous year due primarily to the receipt of the American Rescue Plan Act funds. Another reason for this variance is due to revenues that are higher than expected and expenditures that are lower than expected at this point in the fiscal year, as discussed in further detail below.

Ms. Hunter reported of the \$21.0 million in cash and investments on December 31, 2021, \$20.9 million was invested in the North Carolina Capital Management Trust (NCCMT) Government portfolio. The Village does not have any installment financing debt obligations as of December 31.

Ms. Hunter stated General fund revenues were \$1,181,000, or 7.9%, above the year-to-date budget projections. Property tax revenues were \$681,000, or 6.5%, above the quarterly revenue estimate. This increase is primarily due to higher collection levels than anticipated through December 31. The real and personal property tax collection rate of 93.8% is 0.2% higher than this time last year. The real and personal base grew by 1.6% and motor vehicle tax base grew by 2.8%, compared to the same period last year. Both rates are comparable to our FY 2022 budgeted increases of 1.5% and 1.0% for real and personal property and motor vehicles, respectively.

Ms. Hunter reported for local option sales taxes, the adopted budget forecast a 3% increase over the previous year. So far, the actual collections for the first four months of the year are running 15% ahead of the previous year's collections. These same four months are \$213,000 above budget, and a recommended adjustment to this revenue source will be proposed in the mid-year budget amendment presented to Council at a future meeting. The impact of online sales tax collections continues to be greater than originally projected, however this is only one factor that contributed to the increase.

Ms. Hunter stated General fund operating expenditures were \$1,897,000, or 19%, below the quarterly budget. This variance is above the expected expenditure variance of 5%; however, differences of this nature are typical at this point in the year. There are a

few identifiable causes for the variance. Salaries and benefits are below quarterly budget due to position vacancies that have taken longer to fill. Also, when developing the FY 2022 budget, the Village anticipated assuming responsibility for Given Memorial Library and Tufts Archives in October. The Village and the Library Board continued conversations and established a final transfer date by April 15, 2022. Thus, operating expenditures will begin approximately six months later than originally expected. Lastly, professional services expenditures are below quarterly budget due to the timing of the stormwater master plan and PDO rewrite project.

Ms. Hunter reported for capital outlay, approximately 31% of the capital outlay budgeted in the first two quarters was expended. A significant portion of the variance includes a fire engine for \$625,000 and a Solid Waste truck for \$220,000 that were ordered but not received by December 31. Another factor relates to the timing of the Village Hall office expansion project. The remaining variance is due to several other projects that were planned for the first two quarters but not yet completed. We expect staff to finish most of these projects by the end of the fiscal year.

Ms. Hunter stated the Village issued 44 single-family residential building permits valued at approximately \$19,596,000 during the first two quarters compared to 71 the previous year. At this point, we do not anticipate reaching the forecasted number of 150 homes constructed by year-end and expect 100-125 homes to be more likely. From an economic outlook perspective, we continue to monitor inflation and interest rate projections as we enter budget preparations for FY 2023. The Federal Reserve is expected to begin increasing interest rates as early as March, and most economists project multiple interest rate increases during 2022.

Ms. Hunter reported during the first two quarters, the Fair Barn covered 92% of operating expenditures with operating revenues. This is significantly greater than the same quarter last year, in which the Fair Barn covered only 12% of expenditures due to COVID-related facility closures. The number of event postponements because of the pandemic has drastically decreased and actual events are reaching pre-pandemic levels. This year's results are in line with our balanced scorecard target of 95%.

Ms. Hunter stated the Harness Track covered 56% of its operating expenditures compared to 61% the previous year. Revenues were approximately \$8,000 higher than last year, but operating expenditures were also higher by approximately \$32,000. While these results are currently above the annual balanced scorecard target of 45%, the actual percentage will decrease as the year progresses since most seasonal stall revenue has been received for the year and operating expenditures will continue.

Ms. Hunter stated the Village Council and Village managers should be commended for exceeding most of the Village's financial targets. Fortunately, the impacts of the pandemic on our revenues and expenditures have been less severe than originally anticipated. As we begin preparing our budget for the upcoming year, we should continue to maintain operating expenditure growth that is in line with operating revenues. We will also consider the American Rescue Plan Act funds and develop a plan to expend those funds in a way that complies with Federal restrictions and benefits the Village long-term. The Village continues to remain in a solid financial position because of our conservative financial policies, good financial planning, and diligent budget oversight.

Mayor Strickland and Council thanked Ms. Hunter for her diligence and great work.

11. Discuss and Consider Resolution #22-01 Amending the Village of Pinehurst Fees and Charges Schedule

Angela Kantor, Human Resources Director, stated the Village's Fees and Charges Policy calls for the periodic review of all fees and charges. She reported staff conducted a review of the Village's Fees and Charges Schedule and recommended several changes. She stated it is recommended that the Library and Archives fees with an effective date of April 15, 2022, coinciding with the transfer date be added. Ms. Kantor noted this year's recommendations were discussed during Council's work session on January 25, 2022. She reported the items proposed for consideration are in the areas of Administration, Planning & Inspections, Public Services, Parks & Recreation, and Library/Archives.

Ms. Kantor noted some of the more significant changes included the increase of copy fee from \$0.10 to \$0.25 in Administration, to be consistent with the recommendation at the library, and no library card fee for residents and non-residents. For Planning & Inspections, Ms. Kantor stated staff requests to correct the inspection fee for the residential electrical/mechanical/plumbing permit from \$40 to \$60, which was error in the fee schedule analysis cost analysis performed in 2019.

Ms. Kantor stated in the Solid Waste division of Public Services, staff recommends increasing the 96-gallon cart cost from \$55 to \$70 to cover our actual costs. In Recreation, staff reviewed the fees of competing event venues in our area and recommends increasing the base fees by \$200 for residents, non-residents, and commercial full day and weekday events. Also, for the Harness Track, staff recommends increasing seasonal stall rent by \$100 to \$1,075 based on other training facility comparisons. Staff recommends decreasing the monthly stall rent from \$325 to \$250.

Ms. Kantor stated in Recreation, staff recommends eliminating the athletic team fee structure and moving to a player fee structure and increasing the Facility Rental Supervisor fee to \$45 for the first two hours and \$15 for each additional hour. Lastly, Ms. Kantor stated for rental fees for use of the Arboretum and Tufts Park, staff recommends increasing the setup/break down fee from \$200 to \$400 per event.

Upon a motion made by Councilmember Hogeman, seconded by Mayor Pro Tem Pizzella, Council unanimously approved Resolution #22-01 amending the Fees and Charges Schedule for the Village of Pinehurst by a vote of 5-0.

12. Discuss and Consider Resolution #22-03 Changes to the Position Classification and Pay Plan

Angela Kantor, Human Resources Director, stated in November 2021, Randy Kuhn, Fleet Maintenance Director, retired after serving over 25 years. Since his departure, we have assessed our needs in this department, and we are recommending the Fleet Maintenance Director be changed to Fleet Maintenance Supervisor. We did slightly modify the responsibilities of the position and the pay grade would change from grade 27 to grade 23. This position will continue to report directly to the Assistant Village Manager of Operations.

Ms. Kantor stated the Resolution will amend the Policy on the Administration of the Position Classification and Pay Plan based on the recommendation above. She noted she also has presented the policy and the amended FY 2021-2022 Position Classification and Pay Plan table for Council approval.

Upon a vote by Councilmember Hogeman, seconded by Mayor Pro Tem Pizzella, Council unanimously approved Resolution #22-03, amending the Policy on the Administration of the Position Classification and Pay plan for the Village of Pinehurst to change the position of Fleet Maintenance Director to Fleet Maintenance Supervisor and reduce the pay grade from grade 27 to grade 23, effective February 8, 2022, by a vote of 5-0.

13. Discuss and Consider Resolution #22-02 NCDOT Request for Highway 2 Transition

Mr. Jeff Sanborn, Village Manager, introduced a resolution requesting that the North Carolina Department of Transportation remove NC Highway 2 designation and commercial truck route designation from Midland Road, Palmetto Road, Azalea Road and Cherokee Road between the Pinehurst Traffic Circle and NC Highway 2.

Mr. Sanborn noted NC Highway 211 connects the Pinehurst Traffic Circle to NC Highway 5 near NC Highway 2, thereby providing a readily accessible alternative for North Carolina commercial traffic, he stated large commercial trucks transiting this section of NC Highway 2 regularly create property damage due to tight turns and often cut-thru on residential Village streets to avoid tight turns and the traffic light at the intersection of NC Highway 2 and NC Highway 5. He stated commercial truck traffic using this section of NC Highway 2 has a substantially negative impact on quality of life for Village residences and small businesses and the removal of NC Highway 2 designation from this section of roads would enable the North Carolina Department of Transportation to also remove designation as a commercial truck route.

Mr. Sanborn stated commercial trucks needing to make local deliveries on and near this section of roads would continue to be permitted to use this section of roads for those local purposes. He requested Council approved Resolution 22-02 requesting that the North Carolina Department of Transportation remove NC Highway 2 designation and commercial truck route designation from Midland Road, Palmetto Road, Azalea Road and Cherokee road between the Pinehurst Traffic Circle and NC Highway 5, thereby making the Pinehurst Traffic Circle the western terminus of NC Highway 2.

On a motion by Councilmember Boesch, seconded by Mayor Pro Tem Pizzella, Council unanimously approved Resolution #22-02, requesting the North Carolina Department of Transportation remove NC Highway 2 designation and commercial truck route

designation from Midland Road, Palmetto Road, Azalea Road, and Cherokee Road between the Pinehurst Traffic Circle and NC Highway 5, thereby making the Pinehurst Traffic Circle the Western Terminus of NC Highway 2, by a vote of 5-0.

14. Other Business

Council presented no other business.

15. Comments from Attendees.

- Jeff Heintz, 225 Lake Forest Drive SW, addressed Council on the Small Area Plans, stating that growth is inevitable, but the current patchwork is probably not wanting the community at large wants. Mr. Heintz stated he participated in all the workshops, and he feels the plan needs to be revised to more address the residents' desires and to reflect closer to the 2019 Comprehensive Plan. He stated he would like to see more direct answers on what this plan will be, versus this is just one option. He stated pressure is not coming from the residents to get this done and instead appears to be coming from developers. He stated he saw no evidence of this pressure in the public workshops from residents, so the process appears to have been inefficient. He noted while some has been caused by the covid dynamics, many more of the issues have been internal process problems. He stated residents need to have the opportunity to speak in this process and he suggests that we try to incorporate an environment where these can be addressed.
- Bob Coates, 21 Edinborough Lane, spoke about the Small Area Plans. He read from an article in the Pilot which expressed that most residents who attended the public hearing were not in favor of the Small Area Plan. He stated one of the major problems is the Village's reliance on consultants. He remarked that multi-level residences are not what the citizens want. He noted preferable would perhaps be like the Turnberry South model.
- Carol Coates, 21 Edinborough Lane, spoke about the Small Area Plan. She stated elements of the character of Pinehurst have been deteriorating for a long time. She noted the impact of growth referred to the Small Area Plan would negatively impact traffic and public welfare. She stated strong zoning is the key for limiting growth.
- Deb Wimberly, Donald Ross Drive, stated she does not want all of the growth and did not move here to live in Cary
- Kate Pearson, Pinehurst, expressed gratitude for extending the moratorium and expressed concerns on the process of the Small Area Plan. She stated the process has been poor in engaging the residents and she stated the video is hard to hear and view in order to learn more. She suggested a Town Hall style meeting or a 2nd public forum to engage citizens that give them a seat at the table going forward. She suggested Council appoint a citizen advisory committee to help provide citizens the opportunity to collaborate all their efforts. She stated the citizens are passionate about this process but are feeling left out.
- John Webster, 140 W. McKenzie, stated he has not liked the process that has occurred so far nor the idea of this plan. He stated he does not know where this idea came from and does not feel it is the desire of the residents. He stated the Village should engage the community more and decide what we really want before we begin planning on what buildings to build. He noted comments on the financial statements and asked Council how much cash is enough and should the taxpayers money not be better used. He stated the Village shouldn't be holding balances for unnecessary needs. He stated Taxpayers could be using this money and making something out of it. He asked Council to consider what a reasonable fund balance rate is and know what we are going to spend money on.
- Bruce Geddes, ETJ resident, stated traffic on Hwy 5 is approximately 20,000 cars a day by the traffic study on NC 5 and Morganton Road. He stated the growth in the small area plan would add more traffic each day. He stated the western connector would remove 4000 or 5000 cars, but the small area plan will put it all back, maybe more. He stated we are moving in the wrong direction or NC 5 is going to continue to be a failed road. He stated this is market driven and not driven by the residents and preservation of what we have now.
- Jack Farrell, 21 Grey Abbey, 100% agrees with previous speaker's comments but he has looked at the plans to see their viability. He provided Council with alternatives to the Plan, noting strongly that the financial analysis should be removed and more time spent engaging residents.
- Debbie Lalor, congratulated the Village on its financial stability, but agreed the Small Area Plan appears to be market-driven. She noted we are at a crossroads and need to rehabilitate the oldtown feel and since there is money in the bank we need to move forward in a preservation mode. She reported the proposed plan doesn't look like Pinehurst and is frightening.
- Jeannie Cassinella, 25 Lake Hills Road, spoke on short-term rentals. She would like guidance's and ordinances to help protect this place. She noted that there a 2 Bills out in the Legislation that would take the rights away from us telling us we

are going to have short-term rentals. She noted the citizens are not happy with the direction Pinehurst is going. She stated we came here for peace and to retire. We now have children here and we need to be concerned about the safety of our children. We shouldn't have to worry about these people using drugs, having parties, parking in our yards etc.

- Debbie Putz, 1 Sandhills Place, Village of Pinehurst Rentals, property manager and licensed broker, stated all our vendors are local and we support our community. We have 24 hour service to handle all problems that may occur. There is a big difference between a respectable management facility and VRBO and Airbnb and this should be recognized. She stated her company knows why their short time rental tenants are here for and why they are staying. She noted they have included in their application process the awareness of Noise regulations, trash requirements, etc. She stated this should not be an adversarial topic and we started with very few properties and do long term rentals as well as short term rentals. Our goal is that when you drive by our properties, you should not know it is a rental property. Air bnb and VRBO are not the same as our firm who has been here supporting our community for a long time.
- Brenda Xeroteris, spoke on short term rentals. She noted she has been working with Darryn Burich, and gathered a list of short term rentals. She said she is now looking Sandhills Rentals and VRBO to collect data. She noted she spoke with Phil Wertz of the CVB who shared a report that he receives from AirBNB. She said this report is discerning and really illustrates the growth of short-term rentals. She stated he told her we are growing in one of the highest in the Country. She noted she is not against short term rentals and just wants something we can all live with. She stated this Council must put forth some zoning and ordinances to protect us

16. Motion to Adjourn.

Upon a motion by Mayor Pro Tem Pizzella, seconded by Councilmember Morgan, Council unanimously approved to adjourn the regular meeting by a vote of 5-0 at 6:54 p.m.

**VILLAGE COUNCIL
MINUTES FOR WORK SESSION OF FEBRUARY 08, 2022
ASSEMBLY HALL
395 MAGNOLIA ROAD
PINEHURST, NORTH CAROLINA**

IMMEDIATELY FOLLOWING THE REGULAR MEETING

The Pinehurst Village Council held a work session at 7:01 p.m., Tuesday, February 8, 2022, in the Assembly Hall of Pinehurst Village Hall, 395 Magnolia Road, Pinehurst, North Carolina. The meeting was streamed in real time on the Village's website.

The following were in attendance:

Mr. John C. Strickland, Mayor
Mr. Patrick Pizzella, Mayor Pro Tem
Ms. Lydia Boesch, Councilmember
Mr. Jeffrey Morgan, Councilmember
Ms. Jane Hogeman, Councilmember
Mr. Jeffrey M. Sanborn, Village Manager
Ms. Kelly Chance, Village Clerk

And approximately 16 attendees, including 6 staff and 1 press.

1. Call to Order.

Mayor John Strickland, called the Council work session to order.

2. Discuss Short-Term Rentals.

Darryn Burich, Planning and Inspections Director presented Council with an update on staff's work on short-term rentals. He noted there has been a lot of conversation from concerned citizens on the lack of regulation on short-term rentals within the Village of Pinehurst. Mr. Burich stated there is not a currently regulations in the PDO and for them to be regulated, they would first have to formally define short-term rentals, and then indicate what zones they would be allowed to be located in. He noted they are currently allowed in all zones from single-family to mixed use zones.

Mr. Burich stated they currently have a couple of different definitions on what constitutes a short-term rental. Councilmember Hogeman asked if the definition listed is from a state definition. Mr. Burich stated it is from the NC Building Codes, as is all the definitions for dwelling, permanent and rental. He stated it appears that our concentration needs to be on single dwelling short-term rentals. Councilmember Hogeman stated that perhaps our concerns are more on the activities that occur in certain zones, rather than what dwellings they occur in.

Mr. Burich stated they are proposing to create a zoning ordinance that would regulate where short-term rentals are allowed and then this would lead to ordinance requirements that would need to be regulated. Councilmember Boesch asked if the Village created a specified short-term district, then would they only be allowed in that district, to which Mr. Burich stated yes. Mayor Strickland stated this is only one option we could look at and we are not at the point to decide on what option would be best.

Councilmember Hogeman asked what standards currently apply to bed and breakfast in the Village. Alex Cameron, Planning staff, provided the definition of homestead rentals which is what bed and breakfast would fall under. Mayor Pro Tem Pizzella asked why we need to divide the Village into districts and why we could not just develop an ordinance that refers to short-term rentals. Mr. Burich stated we could but then you would have to allow them in all districts to regulate them.

Councilmember Morgan stated he thinks the Village needs to set our objectives first on what we want to accomplish first before we discuss district restrictions. He stated we have property owners who are legacy owners who have short-term rentals already established and he wants to ensure we protect property owner rights as well. Mr. Burich stated he felt the objectives center around the quality-of-life complaints that arise from short-term rentals. Councilmember Morgan said we have a financial aspect around this and an obligation to protect property owner's rights. He stated the first step is to determine these objectives.

Councilmember Hogeman stated we need to also understand the enforcement part and ensure we don't put something in place, a regulatory framework, that is not realistically enforceable. She stated Southern Pines limits short-term rentals to only commercial areas. Village Manager Sanborn stated short-term rentals are only going to be on residential properties. He asked if the result Council is looking for is that we want the impact from Short-term rentals is the same as what we want from our long-term residents. Councilmember Boesch stated she sees it as we want all short-term rental occupants to behave themselves, such as residents.

Councilmember Hogeman stated we need to provide details on the activity of short-term properties so if an activity occurs, we can say that activity is not allowed in that zone. Councilmember Morgan reiterated again that we need to first form our objectives before we talk guidelines. He pointed out most short-term rentals appear to be within the Historic District. He stated if we say we can only have short-term rentals in certain districts than we have stepped on property owner rights of those who are already established and perhaps purchased that land for that usage. He stated we need to enforce behaviors not property rights.

Mayor Strickland stated we need to state our objectives and start from there. Mayor Pro Tem Pizzella stated we already have areas that are restricted that do not allow it, so we have eliminated some areas already. Councilmember Boesch stated our chief complaints are noise, parking of too many cars, and occupancy of too many per house. She asked if we could enforce those. Village Manager Sanborn said we can regulate how the rental is advertised. Mr. Burich stated we would do a permitting requirement as the first check on this, which would provide the rules and parameters we allow.

Councilmember Boesch stated this would require more staff time and a fee being charged for this. She stated this would cover most of the complaints we are trying to combat. Councilmember Morgan provided some objectives that make sense for the Village to adopt. He stated we need to determine these objectives, then get input from the community and those residents who are renting these properties. Mayor Pro Tem Pizzella stated he wants us to regulate those out of state owners who use Airbnb. Councilmember Boesch stated that is a property owner's right.

Mayor Strickland stated we need to concentrate on the obvious nuisance type problems, but we need to first focus on the policy that will state our objectives. This will give us the framework to work the further details from. Councilmember Morgan stated that one certain thing is not going to solve our problem, like restricting the zones they are allowed in, and we are not going to please everyone. He stated he receives emails and phone calls from residents who want short-term rentals and those who don't, so we are not going to come up with a perfect plan for everyone.

Per the Council's request, Mr. Burich and staff will develop some policy objectives and present to Council at the next meeting.

3. Small Area Plans Discussion.

Mr. Burich presented some further information on the comments received at the open-house meeting, public workshop. He stated there was approximately 108 present, not including staff and they did receive some good comments. Mr. Burich explained the process to date on the Small Area Plans. He noted the Plans are a concept plan that sets a vision for the area, and they are not meant to be regulators. He stated once a plan is adopted, those regulatory guidelines would be determined.

Mr. Burich noted the plan that staff moved forward on is from the consensus of the Council, with Councilmember Hogeman stating her opposition. He stated the zoning phase does not occur until a plan has been adopted. Mr. Burich stated he would agree to have another open-house and then they would need to take the comments that come from this and present it to the Planning and Zoning Board. He stated staff needs direction from Council on the next steps.

Mr. Burich states he needs to know from Council on what specifics they need to focus on in the plan, likes or dislikes. He noted that staff has already made numerous changes based on Council input and desires, but if we need to reevaluate those decisions, then staff just needs to know.

Mayor Strickland stated the concerns he has been hearing are on Land Use, traffic generation issue, zoning and what would that look like, density issues and pressures of population, and the idea that Pinehurst is not in need of creating commercial and residential growth and change, so what is the best mix for the future. He stated we do not need to build just to meet demand.

Councilmember Hogeman stated she would like to see more public input and a venue where the public, Council and staff can all have more of a conversation. She stated a better venue would be a town-hall type meeting. She stated the plans are complex and

confusing and she finds the detailed plans including cars and buildings including on the plan, that aren't going to be there, to be difficult to decipher. She stated she would like to see zoning districts on the plans and clearly defined boundaries. Councilmember Hogeman stated she would like to have a session to talk directly with the Consultants and then have the opportunity for Council to look at the data before it is sent to the Planning and Zoning Board. She stated the plans appear to be based on the marketing analysis instead of community desire.

Councilmember Morgan stated he does agree this needs to come back to Council where there will be philosophical differences that will not make the entire community happy. He agrees the plan does show compliance with the 2019 Comprehensive Plan and he understands this is a living document that can be changed. He stated before the Council can provide more direction to staff, they do not to speak with the Consultants, come to a consensus as a Council, and then determine the next steps. He noted we do not have a requirement to stay exactly with what is in the Comp Plan, but that is a discussion for the Council to have.

Mayor Pro Tem Pizzella stated he is impressed with the comprehensiveness of the plan but not impressed with the proposed recommendations. He stated he saw things that would be harmful to traffic and infrastructure in the future. He stated he felt the Consultants should be presenting this plan and defending it, not staff. He noted they were paid to develop the plan and should meet with Council to talk about the results. Mayor Pro Tem Pizzella asked if a section of the plan doesn't happen, does that affect the rest of the area.

Village Manager Sanborn stated that this is only a conceptual plan that shows opportunities. He noted this does not mean that any of it will occur and those decisions will only be made by Council decision. Mayor Pro Tem Pizzella asked about the referral to form-based code and asked for some education on this. He stated Council needs to determine the true cost of the plan. He noted the Fiscal Impact Analysis shows that all these proposals are losers. He stated it does not look like we have a winner according to their data.

Mayor Pro Tem Pizzella stated he noticed the design comes within 1100 feet of some back yards and he is not comfortable with this. He stated he feels a plan looking at 30-50 years out is too much. He wants to see a focus on 3-5 years. He stated he feels that this does not answer the questions of the residents and does not meet their desires. He stated he will listen, but he does not feel this is a good plan. He asked why we need a gateway at Rattlesnake Trail which would cause too much more traffic in that area. He stated this would cause harm to those walking around the Canon Park area. He thanked the staff for the time they have put into the plan.

Councilmember Boesch stated her greatest concern is that the public wants different housing options, and this could be done in Pinehurst South. She stated she would like to hear what the public said during the open-house, and she wants people to know we are listening. She stated that she knows that some of the comments the public has made is not accurate and she is thankful of the work that staff has done and their willingness to answer the public's questions.

Councilmember Boesch asked if there are areas around that are like this plan, and Mr. Burich stated Walker Station would be a good example. He stated it provides a lot of housing variety, greenspace, and the one thing it lacked was a place to walk to, which the plan would provide. Councilmember Boesch stated this plan shows a uniformity in the community that is just being replicated and not far-outreaching. She stated she felt we have done a lot of public engagement, and this is a 30-50-year plan that does not mean we have to do any of this right away. She noted we know right now we are already working on traffic issues, so this plan is not meant to fix issues that may incur that far down the road. Mr. Burich stated these plans typically are only relevant for a 7-to-10-year period.

Councilmember Boesch stated she wants to note that every plan Council has done, has built upon prior plans. She stated we do not need to correct every deficiency now before we adopt this and we will, as we go, be tweaking this. She noted there are people in the community who really do like this, and she doesn't feel it is as bad as people want us to think it is. She stated it does stay with the 2019 Comp plan and it is a good plan.

4. Other Work Session Business.

- No other work session business was discussed.

5. Potential Future Agenda Items.

- No future agenda items were discussed.

6. Motion to Adjourn.

Upon a motion by Mayor Pro Tem Pizzella, seconded by Councilmember Morgan, Council unanimously approved to adjourn the work session, by a vote 5-0, at 9:15 p.m.

Respectfully Submitted,

Kelly Chance,
Village Clerk

MEMO DETAILS:

Local government agencies in North Carolina include municipalities, counties, and regional entities. These organizations, along with any entities with whom they contract to perform the public business, are subject to the requirements of North Carolina's Public Records Act (G.S. 132). The retention and disposition schedules that follow are the tools created by the Government Records Section to assist employees of local government agencies in managing the records in their offices. These schedules list records series commonly found in local government offices, provide an assessment of their value, and indicate when (and if) these records should be destroyed.

These schedules are an agreement between the local government agencies and the Department of Natural and Cultural Resources (DNCR), serving as the inventory and schedule that DNCR is directed to provide by G.S. 121-5(c) and G.S. 132-8. Beginning in 2019, the Government Records Section excised common records standards, such as Legal and Personnel, from the individual retention and disposition schedules and combined them into the General Records Schedule for Local Government Agencies. All local government agencies should use the General Records Schedule for Local Government Agencies alongside the program schedule that covers the specific work assigned to your office.

These schedules must be approved by the local governing board before they can be used to authorize the destruction of public records. This approval should be made in a regular meeting and recorded as an action in the minutes. It may be accomplished as part of the consent agenda, by resolution, or by other action.

Attached is draft Resolution 22-04 for Council to consider. This resolution would adopt the 2021 Local Government Agencies General Records Retention and Disposition Schedule and the Programs Records Retention and Disposition Schedule which were released on October 1, 2021 by the State Archives of North Carolina.

RESOLUTION #22-04:

A RESOLUTION ADOPTING THE REVISED 2021 LOCAL GOVERNMENT AGENCIES GENERAL RECORDS RETENTION AND DISPOSITION SCHEDULE, AND THE PROGRAM RECORDS RETENTION AND DISPOSITION SCHEDULE FOR THE VILLAGE OF PINEHURST

WHEREAS, the Village Council of the Village of Pinehurst adopted the Municipal Records Retention and Disposition Schedule issued by the NC Department of Cultural Resources, Division of Archives and Records, dated September 10, 2012; and

WHEREAS, since that time the State Archives of North Carolina has issued a revised universal schedule for general records, the 2021 Local Government Agencies General Records Retention and Disposition Schedule; and

WHEREAS, since that time the State Archives of North Carolina has issued a revised universal schedule for program records, the 2021 Local Government Agencies Program Records Retention and Disposition Schedule; and

WHEREAS, the Village Council, after considering all of the facts and circumstances surrounding the proposed schedules, have determined that it is in the best interest of the Village of Pinehurst to adopt these schedules as recommended by the State Archives of North Carolina.

NOW, THEREFORE, BE IT RESOLVED by the Village Council of the Village of Pinehurst, North Carolina in the regular meeting assembled on the 22nd day of February, 2022, as follows:

SECTION 1. That the Revised 2021 Local Government Agencies General Records and Disposition Schedule is hereby adopted effective immediately, and the Mayor is authorized to execute the attached document to be returned to the State.

SECTION 2. That the Revised 2021 Local Government Agencies Program Records and Disposition Schedule is hereby adopted effective immediately, and the Mayor is authorized to execute the attached document to be returned to the State.

SECTION 3. That this Resolution shall be and remain in full force and effect from the date of its adoption.

THIS RESOLUTION passed and adopted this 22nd day of February, 2022.

2021 General Records Schedule: Local Government Agencies

The records retention and disposition schedules and retention periods governing the records series listed herein are hereby approved. This approval extends to and includes the following standards in the **2021 General Records Schedule: Local Government Agencies**:

1. Administration and Management Records
2. Budget, Fiscal, and Payroll Records
3. Geographic Information System Records
4. Human Resources Records
5. Information Technology Records
6. Legal Records
7. Public Relations Records
8. Risk Management Records
9. Workforce Development Records

In accordance with the provisions of Chapters 121 and 132 of the *General Statutes of North Carolina*, it is agreed that the records do not and will not have further use or value for official business, research, or reference purposes after the respective retention periods specified herein and are authorized to be destroyed or otherwise disposed of by the agency or official having custody of them without further reference to or approval of either party to this agreement.

Destructions

G.S. § 121-5 authorizes the Department of Natural and Cultural Resources to regulate the destruction of public records. Furthermore, the local government agency agrees to comply with 07 NCAC 04M .0510 when deciding on a method of destruction. The North Carolina Administrative Code states:

“(a) Paper records which have met their required retention requirements and are not subject to legal or other audit holds should be destroyed in one of the following ways:

1. burned, unless prohibited by local ordinance;
2. shredded, or torn up so as to destroy the record content of the documents or material concerned;
3. placed in acid vats so as to reduce the paper to pulp and to terminate the existence of the documents or materials concerned; or
4. sold as waste paper, provided that the purchaser agrees in writing that the documents or materials concerned will not be resold without pulverizing or shredding the documents so that the information contained within cannot be practicably read or reconstructed.

(b) When used in an approved records retention and disposition schedule, the provision that electronic records are to be destroyed means that the data and metadata are to be overwritten, deleted, and unlinked so the data and metadata may not be practicably reconstructed.

(c) When used in an approved records retention and disposition schedule, the provision that confidential records of any format are to be destroyed means the data, metadata, and physical media are to be destroyed in such a manner that the information cannot be read or reconstructed under any means.”

All local government agencies should maintain logs of their destructions either in the minutes of their governing board or in their Records Management file. Confidential records will be destroyed in such a manner that the records cannot be practicably read or reconstructed.

Public records, including electronic records, not listed in this schedule are not authorized to be destroyed.

Audits and Litigation Actions

Records subject to audit or those legally required for ongoing official proceedings must be retained until released from such audits or official proceedings, notwithstanding the instructions of this schedule.

Electronic Records

All local government agencies and the Department of Natural and Cultural Resources concur that the long-term and/or permanent preservation of electronic records requires additional commitment and active management by the agency. Agencies agree to comply with all policies, standards, and best practices published by the Department of Natural and Cultural Resources regarding the creation and management of electronic records.

Local government agencies should consider retention requirements and disposition authorities when designing and implementing electronic records management systems. Any type of electronically-created or electronically-stored information falls under the North Carolina General Assembly's definition of public records cited above. For example, e-mail, text messages, blog posts, voicemails, websites, word processing documents, spreadsheets, databases, and PDFs all fall within this definition of public records. In addition, G.S. § 132-6.1(a) specifies:

“Databases purchased, leased, created, or otherwise acquired by every public agency containing public records shall be designed and maintained in a manner that does not impair or impede the public agency's ability to permit the public inspection and examination of public records and provides a means of obtaining copies of such records. Nothing in this subsection shall be construed to require the retention by the public agency of obsolete hardware or software.”

Local government agencies may scan any paper record and retain it electronically for ease of retrieval. If an agency wishes to destroy the original paper records before their assigned retention periods have been met, the agency must establish an electronic records policy, including putting into place procedures for quality assurance and documentation of authorization for records destructions approved by the Government Records Section. This electronic records policy and releases for destruction of records must be approved by the Government Records Section. Agencies should be aware that for the purpose of any audit, litigation, or public records request, they are considered the records custodian obligated to produce requested records, even if said records are being maintained electronically by an outside vendor. Therefore, contracts regarding electronically stored information should be carefully negotiated to specify how records can be exported in case a vendor goes out of business or the agency decides to award the contract to a different vendor.

Reference Copies

All local government agencies and the Department of Natural and Cultural Resources agree that certain records series possess only brief administrative, fiscal, legal, research, and reference value. These records series have been designated by retention periods that allow these records to be destroyed when “*reference value ends*.” All local government agencies hereby agree that they will establish and enforce internal policies setting minimum retention periods for the records that Natural and Cultural Resources has scheduled with the disposition instruction “*destroy when reference value ends*.” If a local government agency does not establish internal policies and retention periods, the local government agency is not complying with the provisions of this retention schedule and is not authorized by the Department of Natural and Cultural Resources to destroy the records with the disposition instruction “*destroy when reference value ends*.”

Record Copy

A record copy is defined as “The single copy of a document, often the original, that is designated as the official copy for reference and preservation.”¹ The record copy is the one whose retention and disposition is mandated by this schedule; all additional copies are considered reference or access copies and can be destroyed when their usefulness expires. In some cases, postings to social media may be unofficial copies of information that is captured elsewhere as a record copy (e.g., a press release about an upcoming agency event that is copied to various social media platforms). Appropriately retaining record copies and disposing of reference copies requires agencies to

¹ Society of American Archivists, *Dictionary of Archives Terminology*.

designate clearly what position or office is required to maintain an official record for the duration of its designated retention period.

Transitory Records

Transitory records are defined as “record[s] that [have] little or no documentary or evidential value and that need not be set aside for future use.”²

North Carolina has a broad definition of public records. However, the Department of Natural and Cultural Resources recognizes that some records may have little or no long-term documentary or evidential value to the creating agency. These records are often called transitory records. They may be disposed of according to the guidance below. However, all public employees should be familiar with their appropriate retention schedule and any other applicable guidelines for their office. If there is a required retention period for these records, that requirement must be followed. When in doubt about whether a record is transitory or whether it has special significance or importance, retain the record in question and seek guidance from a DNCR records analyst.

Routing slips and transmittal sheets adding no information to that contained in the transmitted material have minimal value after the material has been successfully transmitted. These records may be destroyed or otherwise disposed of after receipt of the material has been confirmed. Similarly, “while you were out” slips, memory aids, and other records requesting follow-up actions (including voicemails and calendar invites) have minimal value once the official action these records are supporting has been completed and documented. These records may be destroyed or otherwise disposed of once the action has been resolved.

Drafts and working papers, including notes and calculations, are materials gathered or created to assist in the creation of another record. All drafts and working papers are public records subject to all provisions of Chapter 132 of the General Statutes, but many of them have minimal value after the final version of the record has been approved, and may be destroyed after final approval, if they are no longer necessary to support the analysis or conclusions of the official record. Drafts and working documents that may be destroyed after final approval include:

- Drafts and working papers for internal and external policies
- Drafts and working papers for internal administrative reports, such as daily and monthly activity reports;
- Drafts and working papers for internal, non-policy-level documents, such as informal workflows and manuals; and
- Drafts and working papers for presentations, workshops, and other explanations of agency policy that is already formally documented.

Forms used solely to create, update, or modify records in an electronic medium may be destroyed in office after completion of data entry and after all verification and quality control procedures, so long as these records are not required for audit or legal purposes. However, if the forms contain any analog components that are necessary to validate the information contained on them (e.g., a signature or notary’s seal), they must be retained according to the disposition instructions for the records series encompassing the forms’ function.

² Ibid.

It is further agreed that these records may not be destroyed prior to the time periods stated; however, for sufficient reason they may be retained for longer periods. This schedule supersedes previous versions of this schedule and any localized amendments; it is to remain in effect from the date of approval until it is reviewed and updated.

EXECUTIVE SUMMARY

- ✓ Some records are covered by the Local Agency Program Retention and Disposition Schedules. See the appendix for Related Records Series Found in Local Agency Program Schedules.
- ✓ According to N.C. Gen. Stat. § 121-5(b) and N.C. Gen. Stat. § 132-3, you may destroy public records only with the consent of the Department of Natural and Cultural Resources (DNCR). The State Archives of North Carolina is the division of DNCR charged with administering a records management program. This schedule is the primary way the State Archives of North Carolina gives its consent. Without approving this schedule, your agency is obligated to obtain the State Archives of North Carolina's permission to destroy *any* record, no matter how insignificant.
- ✓ Each records series listed on this schedule has specific disposition instructions that will indicate how long the series must be kept in your office. In some cases, the disposition instructions are simply "retain in office permanently," which means that those records must be kept in your office forever. In other cases, the retention period may be "destroy in office when reference value ends." An agency may have reference copies of materials, meaning "a copy of a record distributed to make recipients aware of the content but not directing the recipient to take any action on the matter" (from Society of American Archivists, *Dictionary of Archives Terminology*). Your agency must establish and enforce internal policies by setting minimum retention periods for the records that the State Archives of North Carolina has scheduled with the disposition instructions, "destroy when reference value ends."
- ✓ E-mail is a record as defined by N.C. Gen. Stat. § 121-5 and N.C. Gen. Stat. § 132. It is the content of the e-mail that is critical when determining the retention period of a particular e-mail, including attachments, not the media in which the record was created. It is important for all agency employees and officials to determine the appropriate records series for specific e-mails and retain them according to the disposition instructions listed with the identified record series.
- ✓ The State Archives of North Carolina recommends that all agency employees and officials view the tutorials that are available online through the State Archives website in order to familiarize themselves with records management principles and practices. The State Archives of North Carolina's online tutorials include topics such as records management and scanning guidelines.
- ✓ The State Archives of North Carolina creates security preservation record copies for minutes and selected other records of governing bodies and commissions, adoption records, and maps and plats. Agencies can request copies of the digital images made during this process. Contact the appropriate Records Management Analyst to begin this process.

- ✓ If you have records that are not listed in this schedule, contact a Records Management Analyst. An analyst will discuss the nature of the records with you to determine if the records have historical value. If the records do not have historical value, we will ask you to complete a Request for Disposal of Unscheduled Records (page A-20) for records that are no longer being created.

LEGEND FOR RECORDS SCHEDULE

This records retention and disposition schedule applies to records in all media, unless otherwise specified.

– symbol designating that one or more records in this series may be confidential or may include confidential information.

Item # – an identifying number assigned to each records series for ease of reference.

Series – “a group of similar records that are . . . related as the result of being created, received, or used in the same activity.” (From Society of American Archivists, *Dictionary of Archives Terminology*). Series in this schedule are based on common functions in government offices.

Records Series Title – a short identification of the records in a series, based on their common function.

Series Description – a longer description of the records in a series, often including the types of records that can frequently be found in that series. This information is included underneath the Records Series Title.

Disposition Instructions – instructions dictating the length of time a series must be retained and how the office should dispose of those records after that time.

Citation – a listing of references to statutes, laws, and codes related to the records series. Citations can include:

- Authority: governing the creation of records
- Confidentiality: limiting access to public records
- Retention: setting a retention period

Throughout this schedule, items that cross-reference other items within this schedule are indicated with a SEE ALSO reference. If you hover your cursor over one of these items, you will see the hand tool that will enable you to click on the item to follow the link to that location.

AUDITS: PERFORMANCE

Records concerning internal and external audits conducted to assess the function of government programs. Includes reports, working papers, corrective measures, and other related records.

MANAGING PUBLIC RECORDS IN NORTH CAROLINA

Q. What is this “records retention and disposition schedule”?

- A.** This document is a tool for the employees of local government agencies across North Carolina to use when managing the records in their offices. It lists records commonly found in agency offices and gives an assessment of their value by indicating how long those records should be retained. This schedule is also an agreement between your agency and the State Archives of North Carolina.

This schedule serves as the inventory and schedule that the State Archives of North Carolina is directed by N.C. Gen. Stat. § 121-5(c) and N.C. Gen. Stat. § 132-8 to provide. It supersedes all previous editions, including all amendments.

Q. How do I get this schedule approved?

- A.** This schedule must be approved by your governing body for use in your agency. That approval should be made in a regular meeting and recorded as an action in the minutes. It may be done as part of the consent agenda, by resolution, or other action.
-

Q. Am I required to have all the records listed on this schedule?

- A.** No, this is not a list of records you must have in your office.
-

Q. What is “reference value”?

- A.** Items containing “reference value” in the disposition instructions are generally records that hold limited value, which is typically restricted to those documenting routine operations within the office. A minimum retention period should be established by the office for any items containing the phrase “destroy in office when reference value ends” in the disposition instructions.
-

Q. Do the standards correspond to the organizational structure of my agency?

- A.** Records series are grouped into standards to make it easier for users to locate records and their disposition instructions. You may find that the groupings reflect the organizational structure of your agency, or you may find that records are located in various standards depending on the content of the record. The intent of the schedule’s organization is to provide an easy reference guide for the records created in your agency.
-

Q. What if I cannot find some of my records on this schedule?

- A.** Sometimes the records are listed in a different standard than how you organize them in your office. Be sure to check the Index and utilize the search function on the PDF version of the schedule to facilitate the location of records series. If you still cannot locate your records on the schedule, contact a Records Management Analyst. We will work with you to amend this records schedule so that you may destroy records appropriately. The Request for Change in Records Schedule form (see page A-19) can be used for such requests.
-

Q. What are public records?

- A.** The *General Statutes of North Carolina*, Chapter 132, provides this definition of public records:
- “Public record” or “public records” shall mean all documents, papers, letters, maps, books, photographs, films, sound recordings, magnetic or other tapes, electronic data-processing records, artifacts, or other documentary material, regardless of physical form or characteristics, made or received pursuant to law or ordinance in connection with the

transaction of public business by any agency of North Carolina government or its subdivisions. Agency of North Carolina government or its subdivisions shall mean and include every public office, public officer or official (State or local, elected or appointed), institution, board, commission, bureau, council, department, authority or other unit of government of the State or of any county, unit, special district or other political subdivision of government.

Q. Is any person allowed to see my records?

- A.** Yes, except as restricted by specific provisions in state or federal law. N.C. Gen. Stat. § 132-6 instructs:

“Every custodian of public records shall permit any record in the custodian’s custody to be inspected and examined at ± times and under reasonable supervision by any person, and shall, as promptly as possible, furnish copies thereof upon payment of any fees as may be prescribed by law. ... No person requesting to inspect and examine public records, or to obtain copies thereof, shall be required to disclose the purpose or motive for the request.”

Q. What about my confidential records?

- A.** Not all government records are open to public inspection. Exceptions to the access requirements in N.C. Gen. Stat. § 132-6 and the definition of public records in N.C. Gen. Stat. § 132-1 are found throughout the General Statutes. You must be able to cite a specific provision in the General Statutes or federal law when you restrict or deny access to a particular record.

Q. Am I required to make available to the public copies of drafts that have not been approved?

- A.** Yes, even if a report, permit, or other record has not been finalized, it is still a public record subject to request. Any record that is not confidential by law must be provided when a request is received, whether it is “finished” or not.

Q. What do I do with permanent records?

- A.** Permanent records should be maintained in the office that created the records, forever.

The Department of Natural and Cultural Resources (DNCR) is charged by the General Assembly with the administration of a records management program (N.C. Gen. Stat. § 121-4 (2) and § 132-8.1) and the maintenance of “a program for the selection and preservation of public records considered **essential** to the operation of government and to the **protection of the rights and interests of persons**” (§ 132-8.2). Permanent records with these characteristics require preservation duplicates that are human-readable (paper or microfilm). Some examples of these characteristics include:

- Affect multiple people, without regard to relation
- Have significance over a long span of time
- Document governance
- Document citizenship

Examples of records with these characteristics:

- Minutes of governing bodies at the state and local levels are the basic evidence of our system of governance, and are routinely provided for the public to read.
- Records, such as deeds and tax scrolls, about land document changes in ownership and condition. Counties maintain offices expressly for the purpose of making those records

available to the public. Other records in local and state governments document potential public health hazards, such as hazardous materials spills.

- Adoptions, marriages, and divorces document changes in familial relationships. Though adoptions are confidential (not available for public inspection), they document changes in inheritance and familial succession.
- Court records, such as wills, estates, and capital cases, affect people within and across family groups, are made available for public inspection, and often involve transactions related to the examples above.

See the Human-Readable Preservation Duplicates policy issued by the North Carolina Department of Natural and Cultural Resources (<https://archives.ncdcr.gov/government/digital-records/digital-records-policies-and-guidelines/human-readable-preservation>) and check with a records analyst to determine whether your permanent records require a preservation duplicate.

Q. What is historical value?

- A.** Historical records document significant events, actions, decisions, conditions, relationships, and similar developments. These records have administrative, legal, fiscal, or evidential importance for the government or its constituents. Two criteria for determining historical value are inherent interest and extraordinary documentation:
- Inherent interest is created by non-routine events, by the involvement of famous parties, and by compelling contexts. For instance, foreclosure proceedings from the 1930s have high historical value because they date from the era of the Great Depression.
 - Extraordinary documentation is found in records that shed light on political, public, or social history. For instance, the records from the replevin case that returned the Bill of Rights to North Carolina hold more historical value than most property case files because of the political history intertwined with this case.

SANC has further elaborated selection criteria that help distinguish records with historical value:

- Do they protect the rights and property of residents and organizations?
- Do they have a long-term impact on residents and organizations?
- Do they document the core functions of an agency?
- Do they document high-level decision-making that shapes an agency's policies or initiatives?
- Do they summarize an agency's activities?

Call a Records Management Analyst for further assistance in assessing historical value.

Q. What if I do not have any records?

- A.** Nearly every position in government generates, receives, or uses records. Computer files of any kind, including drafts and e-mail, are public records. Even if your records are not the official or final version, your records are public records. Not all records have high historical, legal, or fiscal value, but they all must be destroyed in accordance with the provisions of the appropriate records schedule.
-

Q. I have a lot of unsorted records. What's a good first step for getting a handle on these records?

- A.** We encourage you to create a file plan of what records you have. When you create this plan, you can match each record to its placement on this schedule or on the appropriate retention schedule. A sample file plan is available on page A-22. Having a file plan can help you strategize how to best organize your physical or digital records. A file plan is also useful in disaster planning and scheduling destructions.

Q. May I store our unused records in the basement, attic, shed, etc.?

- A.** Public records are public property. Though we encourage agencies to find places to store records that do not take up too much valuable office space, the selected space should be dry, secure, and free from pests and mold. Your office must ensure that records stored away from your main office area are well protected from natural and man-made problems while remaining readily available to your staff and the public.

Q. Our old records are stored in the attic, basement, or off-site building, etc. Are we required to provide public access to these records?

- A.** Yes, as long as the records are not confidential by law. You should also be aware that confidentiality can expire.

Q. Aren't all our old records at the State Archives of North Carolina?

- A.** Probably not. The State Archives of North Carolina collects only very specific types of records from local government offices. Contact a Records Management Analyst for more information about which records are held or can be transferred to the State Archives of North Carolina for permanent preservation.

Q. I found some really old records. What should I do with them?

- A.** Call a Records Management Analyst. We will help you examine the records and assess their historical value.

Q. Can I give my old records to the historical society or public library?

- A.** Before you offer any record to a historical society, public library, or any other entity, you must contact a Records Management Analyst. Permanent records must be kept either in your offices or at the State Archives of North Carolina.

Q. Whom can I call with questions?

- A.** If you are located west of Statesville, call our Western Office in Asheville at (828) 250-3103. If you are east of Statesville, all the way to the coast, call our Raleigh office at (919) 814-6900.

AUDITS, LITIGATION, AND OTHER OFFICIAL ACTION

Q. Why is there an asterisk in the disposition instructions of so many items on this schedule?

A. No record involved in a pending or ongoing audit, legal, or other official action may be destroyed before that audit or action is resolved.

A legal hold or litigation hold means that records that are the subject of the legal hold or litigation hold must be preserved and thus must not be destroyed until officially released from the hold. A legal hold or litigation hold is placed when either an official discovery order is served on the agency requesting the production of the records in question (for a litigation, regulatory investigation, audit, open records request, etc.) or litigation is pending and the agency is thus on notice to preserve all potentially relevant records. You must also ensure that for a claim or litigation that appears to be reasonably foreseeable or anticipated but not yet initiated, any records (in paper or electronic formats) relevant to such a claim or litigation are preserved and not destroyed until released by your General Counsel. The records in question must not be destroyed until the completion of the action and the resolution of all issues that arise from it regardless of the retention period set forth in this schedule.

We have used an asterisk (*) in the disposition instructions to mark records series that are commonly audited, litigated, or may be subject to other official actions. However, any record has this potential. Records custodians are responsible for being aware of potential actions, and for preventing the destruction of any record that is, or may be reasonably expected to become, involved in an audit, legal, or other official action.

Records used during routine audits may be destroyed when the governing body accepts the audit, if the records have completed the retention period listed in this schedule. If time remains in the retention period, the records must be maintained for the remainder of the period. The auditor's working papers must be kept according to the schedule. (See Audits: Performance (STANDARD 1: ADMINISTRATIVE AND MANAGEMENT RECORDS) and Audits: Financial (STANDARD 2: BUDGET, FISCAL, AND PAYROLL RECORDS).) Should a dispute arise over an audit, the records that were audited should be retained until that dispute is resolved.

The attorney representing the agency should inform records custodians when legal matters are concluded and records will no longer be needed. Following the conclusion of any legal action, the records may be destroyed if they have met the retention period in the schedule. Otherwise, they should be kept for the remaining time period.

TRANSITORY RECORDS

Transitory records are defined as “record[s] that [have] little or no documentary or evidential value and that need not be set aside for future use.”³

According to North Carolina General Statutes § 121 and § 132, every document, paper, letter, map, book, photograph, film, sound recording, magnetic or other tape, electronic data processing record, artifact, or other documentary material, regardless of physical form or characteristics, made or received in connection with the transaction of public business by any state, county, municipal agency, or other political subdivision of government is considered a public record and may not be disposed of, erased, or destroyed without specific approval from the Department of Natural and Cultural Resources.

The Department of Natural and Cultural Resources recognizes that some records may have little or no long-term documentary or evidential value to the creating agency. These records are often called “transitory records.” The following questions and answers discuss types of transitory records commonly created in state government. They may be disposed of according to the guidance below. However, all public employees should be familiar with the *General Records Schedule: Local Government Agencies*, their office’s Program Records Retention and Disposition Schedule, and any other applicable guidelines for their office. If any of these documents require a different retention period for these records, follow the longer of the two retention periods. When in doubt about whether a record is transitory, or whether it has special significance or importance, retain the record in question and seek guidance from the analyst assigned to your agency.

Q. What do I do with routing slips, fax cover sheets, “while you were out” slips, memory aids, etc.?

- A.** Routing slips and transmittal sheets adding no information to that contained in the transmitted material have minimal value after the material has been successfully transmitted. These records may be destroyed or otherwise disposed of after receipt of the material has been confirmed.

Similarly, “while you were out” slips, memory aids, and other records requesting follow-up actions (including voicemails) have minimal value once the official action these records are supporting has been completed and documented. Unless they are listed on the *General Records Schedule: Local Government Agencies* or your office’s Program Records Retention and Disposition Schedule, these records may be destroyed or otherwise disposed of once the action has been resolved.

Q. What about research materials, drafts, and other working papers used to create a final, official record?

- A.** Drafts and working papers are materials, including notes and calculations, gathered or created to assist in the creation of another record. All drafts and working papers are public records subject to all provisions of General Statute § 132, but many of them have minimal value after the final version of the record has been approved, and may be destroyed after final approval, if they are no longer necessary to support the analysis or conclusions of the official record. Drafts and working documents which may be destroyed after final approval include:

- Drafts and working papers for internal and external policies

³ Society of American Archivists, *Dictionary of Archives Terminology*.

- Drafts and working papers for internal administrative reports, such as daily and monthly activity reports
- Drafts and working papers for internal, non-policy-level documents, such as informal workflows and manuals; and
- Drafts and working papers for presentations, workshops, and other explanations of agency policy that are already formally documented.

Q. What if I have forms designed and used solely to create, update, or modify records in an electronic medium?

- A.** If these records are not required for audit or legal purposes, they may be destroyed in office after completion of data entry and after all verification and quality control procedures. However, if the forms contain any analog components that are necessary to validate the information contained on them (e.g., a signature or notary's seal), they should be retained according to the disposition instructions for the records series encompassing the forms' function.

See also the State Archives of North Carolina's guidance on digital signatures found at: <https://archives.ncdcr.gov/government/digital-records/digital-records-policies-and-guidelines#digital-signatures>

DESTRUCTION OF PUBLIC RECORDS

Q. When can I destroy records?

- A.** Each records series listed on this schedule has specific disposition instructions that indicate how long the series must be kept in your office. In some cases, the disposition instructions are “Retain in office permanently,” which means that those records must be kept in your offices forever.
-

Q. How do I destroy records?

- A.** After your agency has approved this records retention and disposition schedule, records should be destroyed in one of the following ways:
- 1) burned, unless prohibited by local ordinance;
 - 2) shredded, or torn so as to destroy the record content of the documents or material concerned;
 - 3) placed in acid vats so as to reduce the paper to pulp and to terminate the existence of the documents or materials concerned;
 - 4) sold as waste paper, provided that the purchaser agrees in writing that the documents or materials concerned will not be resold without pulverizing or shredding the documents so that the information contained within cannot be practicably read or reconstructed.

The provision that electronic records are to be destroyed means that the data, metadata, and physical media are to be overwritten, deleted, and unlinked so that the data and metadata may not be practicably reconstructed.

The data, metadata, and physical media containing confidential records of any format are to be destroyed in such a manner that the information cannot be read or reconstructed under any means.

— N.C. Administrative Code, Title 7, Chapter 4, Subchapter M, Section .0510

Without your agency’s approval of this records schedule, no records may legally be destroyed.

Q. How can I destroy records if they are not listed on this schedule?

- A.** Contact a Records Management Analyst. An analyst will discuss the nature of the records with you to determine if the records have historical value. If the records do have historical value, we will discuss the possibility of transferring the records to the State Archives of North Carolina to be preserved permanently.

If the records do not have historical value, we will ask you to complete a Request for Disposal of Unscheduled Records (page A-20) if the records are no longer being created. If the records are an active records series, an analyst will help you develop an amendment to this schedule so that you can destroy the records appropriately from this point forward.

Q. Am I required to tell anyone about the destructions?

- A.** We recommend that you report on your records retention activities to your governing board on an annual basis. This report does not need to be detailed, but it is important that significant destructions be entered into the minutes of the Board. See a sample destructions log that follows (and is available online at the State Archives of North Carolina website, <https://archives.ncdcr.gov/government/rm-tools>).

ELECTRONIC RECORDS: E-MAIL, BORN-DIGITAL RECORDS, AND DIGITAL IMAGING

Q. When can I delete my e-mail?

- A.** E-mail is a public record as defined by N.C. Gen. Stat. § 121-5 and § 132. Electronic mail is as much a record as any paper record and must be treated in the same manner. **It is the content of each message that is important.** If a particular message would have been filed as a paper memo, it should still be filed (either in your e-mail program or in your regular directory structure), and it should be retained the same length of time as its paper counterparts. **It is inappropriate to destroy e-mail simply because storage limits have been reached.** Some examples of e-mail messages that are public records and therefore covered by this policy include:

- Policies or directives;
- Final drafts of reports and recommendations;
- Correspondence and memoranda related to official business;
- Work schedules and assignments;
- Meeting agendas or minutes
- Any document or message that initiates, facilitates, authorizes, or completes a business transaction; and
- Messages that create a precedent, such as issuing instructions and advice.

*From the Department of Cultural Resources E-Mail Policy (Revised July 2009),
available at the State Archives of North Carolina website*

Other publications (available online at the [State Archives of North Carolina website](#)) that will be particularly helpful in managing your e-mail include tutorials on managing e-mail as a public record and on using Microsoft Exchange.

Q. May I print my e-mail to file it?

- A.** We do not recommend printing e-mail for preservation purposes. Important metadata is lost when e-mail is printed.

Q. I use my personal e-mail account for work. No one can see my personal e-mail, right?

- A.** The best practice is to avoid using personal resources, including private e-mail accounts, for public business. N.C. Gen. Stat. § 132-1 states that records “made or received pursuant to law or ordinance *in connection with the transaction of public business* by any agency of North Carolina government or its subdivisions” are public records (emphasis added). The fact that public records reside in a personal e-mail account is irrelevant.

Q. We have an imaging system. Are we required to keep the paper?

- A.** You may scan any record, but you will need to receive approval from the Government Records Section in order to destroy paper originals that have been digitized. Your agency must develop an electronic records policy and then submit a Request for Disposal of Original Records Duplicated by Electronic Means. You can find these templates in the Digital Imaging section of the State Archives of North Carolina website (<https://archives.ncdcr.gov/government/digital-records/digital-records-policies-and-guidelines#digital-imaging>). Contact a Records Management Analyst for further instructions on how to develop a compliant electronic records policy.

Permanent records must have a security preservation copy as defined by State Archives of North Carolina's [Human-Readable Preservation Duplicate Policy](#) (N.C. Gen. Stat. § 132-8.2):

Preservation duplicates shall be durable, accurate, complete and clear, and such duplicates made by a photographic, photo static, microfilm, micro card, miniature photographic, or other process which accurately reproduces and forms a durable medium for so reproducing the original shall have the same force and effect for all purposes as the original record whether the original record is in existence or not. ... Such preservation duplicates shall be preserved in the place and manner of safekeeping prescribed by the Department of Natural and Cultural Resources.

The preservation duplicate of permanent records must be either on paper or microfilm.

Non-permanent records may be retained in any format. You will need to take precautions with electronic records that you must keep more than about 5 years. Computer systems do not have long life cycles. Each time you change computer systems, you must convert all records to the new system so that you can assure their preservation and provide access.

Q. Computer storage is cheap. Can I just keep my computer records permanently?

- A.** The best practice is to destroy all records that have met their retention requirements, regardless of format.

Q. What are the guidelines regarding the creation and handling of electronic public records, including text messages and social media?

- A.** There are numerous documents available on the State Archives of North Carolina website (<https://archives.ncdcr.gov/government/digital-records/digital-records-policies-and-guidelines>). Topics covered include shared storage, cloud computing, e-discovery, trustworthy digital public records, digital signatures, e-mail, social media, text messages, websites, digital imaging, metadata, file formats, database indexing, and security backups.

Note that e-mail, text messages, and social media should be handled according to their content. Therefore, this schedule does not include a records series that instructs you on how to handle one of these born-digital records by format; instead of focusing on how the information is disseminated, consider what content is contained in the e-mail, text message, or social media post. For instance, an e-mail requesting leave that is sent to a supervisor should be kept for 3 years (see Leave Records, STANDARD 4: HUMAN RESOURCES RECORDS).

GEOSPATIAL RECORDS

Q. Why should geographic information system (GIS) datasets be retained and preserved?

- A.** Geospatial records are public records and need to be retained and preserved based on their legal, fiscal, evidential and/or historical value according to an established retention schedule. Local agencies involved in GIS operations should work with the State Archives of North Carolina in order to appraise, inventory, and preserve their geospatial records according to established best practices and standards to insure both their short- and long-term accessibility.

Due to the complexity and transitory nature of these records, geospatial records retention and long-term preservation is a community-wide challenge. GIS files have become essential to the function of many local agencies and will continue to frequently be utilized in agency decision-making processes in the near and far future. Accessibility of GIS records over time has legal, fiscal, practical, and historical implications. The availability of GIS records can help safeguard the local government's legal and fiscal accountability and aid agencies in conducting retrospective and prospective studies. These studies are only possible when essential data from the past are still available.

Q. What GIS datasets should be preserved by local governments?

- A.** The following types of geospatial records have been designated as having archival value:
- Parcel data
 - Street centerline data
 - Corporate limits data
 - Extraterritorial jurisdiction data
 - Zoning data, address points
 - Orthophotography (imagery)
 - Utilities
 - Emergency/E-911 themes

For more information, see **STANDARD 3: GEOGRAPHIC INFORMATION SYSTEM (GIS) RECORDS**.

Q. How often should we capture the datasets retained for their legal, fiscal, evidential or historical value?

- A.** Consult the retention schedule for frequency of capture. The frequency of capture is based on the significance of the record as well as its alterability.

Q. What data formats, compression formats, and media should be used to preserve the data?

- A.** Archiving practices should be consistent with North Carolina Geographic Information Coordinating Council (GICC) approved standards and recommendations. (Examples: Content Standards for Metadata; Data Sharing Recommendations). Consult the GICC website at <https://it.nc.gov/about/boards-commissions/gicc>.

Q. *Who should be responsible for creation and long-term storage of archived data?*

- A.** The creating agency, NCOneMap, and the State Archives of North Carolina may all have responsibility for archiving data. If you choose to upload your data to NCOneMap, consult with your county's GIS department to determine whether data will be uploaded by your agency or by the whole county. If you choose not to upload your data to NCOneMap, your agency must comply with standards (for metadata, file naming, data sharing, and long term preservation) and procedures adopted by the North Carolina Geographic Information Coordinating Council.

SECURITY PRESERVATION COPIES OF RECORDS

Q. What is the advantage to having security preservation copies of records stored with the State Archives?

- A.** Having duplicate copies of essential records in a separate location mitigates the risk that you may lose the only physical copy of a given record in a disaster or other records loss event. Maintaining offsite duplicates of records, regardless of format, is a good practice to adopt.

The State Archives creates duplicate copies on microfilm because of the durability of the medium. Silver negative microfilm does not decay for hundreds of years, ensuring that your records maintain their integrity over time.

Q. What records will the State Archives back up for us?

- A.** The State Archives provides security imaging services for minutes of major decision-making boards and commissions. We will also image records of adoptions for Social Services agencies as well as maps and plats from Registers of Deeds offices. Once those records are imaged, they are converted to security microfilm. We will store the silver negative (original) microfilm in our security vault. Contact the Records Management Analyst in charge of imaging coordination for the most current information.
-

Q. How do I start the process of backing up the above listed records?

- A.** We have three processes for creating backup film copies of these records. First, you can send photocopies of your approved minutes to us in the mail. Simply include a copy of the **Certification of the Preparation of Records for Security Preservation Copy** form (available online at the [State Archives of North Carolina website](#)) with each shipment. For more detailed instructions, contact a Records Management Analyst.

Secondly, you can bring us your original books. We will film them and return them to you. This process is most useful when you have more minutes to film than you are willing to photocopy. It is important to remember that a representative of your office or ours must transport the original books in person so that the custody of the records is maintained. You should not mail or ship your original minutes. Contact the Records Management Analyst in charge of imaging coordination to schedule an appointment for your books to be imaged. We will make every effort to expedite the filming so that your books will be returned to you as quickly as possible.

Finally, you can submit these records to the State Archives electronically. Please see our procedures in "[Transfer of Minutes in Digital Formats for Microfilming](#)" or contact the Records Management Analyst in charge of imaging coordination for more information.

Q. In the event of a records loss, how do I obtain copies of the security preservation copies stored at the State Archives?

- A.** Contact the Records Management Analyst in charge of imaging coordination who will help you purchase copies of the microfilm from our office. You can then send those reels to a vendor who can either make new printed books or scan the film to create a digital copy.

Q. Can I obtain digital copies of the security preservation records?

- A.** Yes, you can request digital copies of records when you submit them to the State Archives for initial reproduction. Contact the Records Management Analyst in charge of imaging coordination to initiate a request for digital duplicates.

DISASTER ASSISTANCE

Q. What should I do in case of fire or flood?

- A.** Secure the area, and keep everyone out until fire or other safety professionals allow entry. Then, call our Raleigh office at (919) 814-6903 for the Head of the Government Records Section or (919) 814-6849 for the Head of the Collections Management Branch. If you're in the western part of the state, call our Asheville Office at (828) 250-3103. On nights and weekends, call your local emergency management office.

DO NOT ATTEMPT TO MOVE OR CLEAN ANY RECORDS.

Damaged records are extremely fragile and require careful handling. Our staff are trained in preliminary recovery techniques, documenting damage to your records, and authorizing destruction of damaged records. Professional vendors can handle larger disasters.

Q. What help do you give in case of an emergency?

- A.** We will do everything we can to visit you at the earliest opportunity in order to provide hands-on assistance. We can assist you in appraising the records that have been damaged so that precious resources (and especially time) are not spent on records with lesser value. We can provide lists of professional recovery vendors that you can contact to preserve your essential and permanent records.
-

Q. What can I do to prepare for an emergency?

- A.** We provide training on disaster preparation that includes a discussion of the roles of proper inventories, staff training, and advance contracts with recovery vendors. If you would like to have this workshop presented, call a Records Management Analyst.
-

Q. What are essential records?

- A.** Essential records are records that are necessary for continuity of operations in the event of a disaster. There are two common categories of records that are considered essential:
- **Emergency operating records** – including emergency plans and directives, orders of succession, delegations of authority, staffing assignments, selected program records needed to continue the most critical agency operations, as well as related policy or procedural records.
 - **Legal and financial rights records** – these protect the legal and financial rights of the Government and of the individuals directly affected by its activities. Examples include accounts receivable records, Social Security records, payroll records, retirement records, and insurance records. These records were formerly defined as “rights-and-interests” records.

Essential records should be stored in safe, secure locations as well as duplicated and stored off-site, if possible.

STAFF TRAINING

Q. What types of workshops or training do you offer?

A. We have a group of prepared workshops that we can offer at any time at various locations throughout the state. Contact a Records Management Analyst if you are interested in having one of the workshops presented to your agency. We will work with you directly to develop training suited to your specific needs. Our basic workshops are:

- Managing public records in North Carolina
- Disaster preparedness and recovery
- Confidentiality
- Organizing paper and digital files
- Digital communications

Q. Will you design a workshop especially for our office?

A. Yes, we will. Let a Records Management Analyst know what type of training you need.

Q. Are workshops offered only in Raleigh?

A. No, we will come to your offices to present the workshops you need. We have no minimum audience requirement. We will also do presentations for professional associations, regional consortiums, and the public. To arrange a workshop, please call the State Records Center at 919-814-6900 or contact a Records Management Analyst (<https://archives.ncdcr.gov/government/local/analysts>).

Q. Is there a fee for workshops?

A. Not at this time.

Q. Are the workshops available in an online format?

A. We can offer a virtual workshop for your agency upon request. For descriptions of available webinars, see <https://archives.ncdcr.gov/government/training/webinars>. You can also find several online tutorials available on the State Archives of North Carolina website (<https://archives.ncdcr.gov/government/training/online-tutorials-and-resources>).

Request for Change in Local Government Records Schedule

Use this form to request a change in the records retention and disposition schedule governing the records of your agency. Submit the signed original and keep a copy for your file. A proposed amendment will be prepared and submitted to the appropriate state and local officials for their approval and signature. Copies of the signed amendment will be sent to you for insertion in your copy of the schedule.

Related Records Series Found in Local Agency Program Schedules

In some limited cases, records series with similar names and/or functions that are created and maintained by local government entities have not been superseded by the *General Records Schedule: Local Government Agencies*. These records series are described as unique records series in one of the local program retention schedules issued separately by DNCR for use by specific local agencies. This duplication occurs when records with similar names and/or functions have different retention guidance due to statutory, legal, evidentiary, or fiscal requirements. An example of this is the accounts receivable records series. In the *General Records Schedule*, the Accounts Receivable records series has a disposition instruction of “Destroy in office 3 years after collection.” In the *Local Health Departments Schedule*, the Accounts Receivable: Clinical Services records series also includes the disposition instruction, “Destroy records supporting the expenditure of federal funds passed through NC DHHS on a fiscal year basis when the DHHS Office of the Controller provides written guidance that records are released from all audits and other official actions.” In both cases, the records series documents the money received by the local agency, however, the retention requirements for the Accounts Receivable: Clinical Services differ due to specific retention requirements concerning the management and dispersal of grant funds.

The purpose of this table is to provide a source for determining if the general records series item listed in the *General Records Schedule: Local Government Agencies* covers the function and/or retention requirements associated with the records created by your agency or if a specific program schedule applies. This table provides pointers to the relevant records series that can be found in one or more of the local agency program schedules.

Here’s how to use the table:

- The records series found in the left-most column are listed and described in the *General Records Schedule: Local Government Agencies* and appear in this schedule with a @ beside them.

ACCOUNTS RECEIVABLE @

Records concerning receivables owed and collected. Includes billing statements, records of payment received, remittances, subsidiary registers, overpayment or refund records, deposits, fines and fees assessed, and collection of past due accounts. Also includes records concerning accounts sent to NC Debt Setoff Program for collection.

- The middle column lists similar records series from one or more of the schedules that have been issued separately for use by specific local agencies.
- The right-hand column lists the local agency program schedule that includes the records series listed in the middle column. The agencies represented in the right column include, but are not limited to, local health departments, Registers of Deeds, Sheriff’s offices, local social services agencies, and tax offices.

If you need further information, please contact a Records Management Analyst.

Program Records Schedule: Local Government Agencies

The records retention and disposition schedules and retention periods governing the records series listed herein are hereby approved. This approval extends to and includes the following standards in the **2021 Program Records Schedule: Local Government Agencies**:

10. Airport Authority Records
11. Animal Services Records
12. Code Enforcement and Inspection Records
13. Emergency Medical Services and Fire Department Records
14. Parks and Recreation Records
15. Planning and Regulation of Development Records
16. Public Housing Authorities, Redevelopment Commissions, and Entitlement Communities Records
17. Public Transportation Systems Records
18. Public Utilities and Environmental/Waste Management Records
19. Street Maintenance, Public Works, and Engineering Records
20. Law Enforcement Records (excluding Sheriff's Offices)
21. Tax Records (for municipalities)

In accordance with the provisions of Chapters 121 and 132 of the *General Statutes of North Carolina*, it is agreed that the records do not and will not have further use or value for official business, research, or reference purposes after the respective retention periods specified herein and are authorized to be destroyed or otherwise disposed of by the agency or official having custody of them without further reference to or approval of either party to this agreement.

Destructions

N.C. Gen. Stat. § 121-5 authorizes the Department of Natural and Cultural Resources to regulate the destruction of public records. Furthermore, the local government agency agrees to comply with 07 NCAC 04M .0510 when deciding on a method of destruction. The North Carolina Administrative Code states:

“(a) Paper records which have met their required retention requirements and are not subject to legal or other audit holds should be destroyed in one of the following ways:

1. burned, unless prohibited by local ordinance;
2. shredded, or torn up so as to destroy the record content of the documents or material concerned;
3. placed in acid vats so as to reduce the paper to pulp and to terminate the existence of the documents or materials concerned; or
4. sold as waste paper, provided that the purchaser agrees in writing that the documents or materials concerned will not be resold without pulverizing or shredding the documents so that the information contained within cannot be practicably read or reconstructed.

(b) When used in an approved records retention and disposition schedule, the provision that electronic records are to be destroyed means that the data and metadata are to be overwritten, deleted, and unlinked so the data and metadata may not be practicably reconstructed.

(c) When used in an approved records retention and disposition schedule, the provision that confidential records of any format are to be destroyed means the data, metadata, and physical media are to be destroyed in such a manner that the information cannot be read or reconstructed under any means.”

All local government agencies should maintain logs of their destructions either in the minutes of their governing board or in their Records Management file. Confidential records will be destroyed in such a manner that the records cannot be practicably read or reconstructed.

Public records, including electronic records, not listed in this schedule are not authorized to be destroyed.

Audits and Litigation Actions

Records subject to audit or those legally required for ongoing official proceedings must be retained until released from such audits or official proceedings, notwithstanding the instructions of this schedule.

Electronic Records

All local government agencies and the Department of Natural and Cultural Resources concur that the long-term and/or permanent preservation of electronic records requires additional commitment and active management by the agency. Agencies agree to comply with all policies, standards, and best practices published by the Department of Natural and Cultural Resources regarding the creation and management of electronic records.

Local government agencies should consider retention requirements and disposition authorities when designing and implementing electronic records management systems. Any type of electronically-created or electronically-stored information falls under the North Carolina General Assembly's definition of public records cited above. For example, e-mail, text messages, blog posts, voicemails, websites, word processing documents, spreadsheets, databases, and PDFs all fall within this definition of public records. In addition, N.C. Gen. Stat. § 132-6.1(a) specifies:

“Databases purchased, leased, created, or otherwise acquired by every public agency containing public records shall be designed and maintained in a manner that does not impair or impede the public agency's ability to permit the public inspection and examination of public records and provides a means of obtaining copies of such records. Nothing in this subsection shall be construed to require the retention by the public agency of obsolete hardware or software.”

Local government agencies may scan any paper record and retain it electronically for ease of retrieval. If an agency wishes to destroy the original paper records before their assigned retention periods have been met, the agency must establish an electronic records policy, including putting into place procedures for quality assurance and documentation of authorization for records destructions approved by the Government Records Section. This electronic records policy and releases for destruction of records must be approved by the Government Records Section. Agencies should be aware that for the purpose of any audit, litigation, or public records request, they are considered the records custodian obligated to produce requested records, even if said records are being maintained electronically by an outside vendor. Therefore, contracts regarding electronically stored information should be carefully negotiated to specify how records can be exported in case a vendor goes out of business or the agency decides to award the contract to a different vendor.

Reference Copies

All local government agencies and the Department of Natural and Cultural Resources agree that certain records series possess only brief administrative, fiscal, legal, research, and reference value. These records series have been designated by retention periods that allow these records to be destroyed when “*reference value ends.*” All local government agencies hereby agree that they will establish and enforce internal policies setting minimum retention periods for the records that Natural and Cultural Resources has scheduled with the disposition instruction “*destroy when reference value ends.*” If a local government agency does not establish internal policies and retention periods, the local government agency is not complying with the provisions of this retention schedule and is not authorized by the Department of Natural and Cultural Resources to destroy the records with the disposition instruction “*destroy when reference value ends.*”

Record Copy

A record copy is defined as “The single copy of a document, often the original, that is designated as the official copy for reference and preservation.”¹ The record copy is the one whose retention and disposition is mandated by these schedules; all additional copies are considered reference or access copies and can be destroyed when their usefulness expires. In some cases, postings to social media may be unofficial copies of information that is captured elsewhere as a record copy (e.g., a press release about an upcoming agency event that is copied to various social

¹ Society of American Archivists, *Dictionary of Archives Terminology*.

media platforms). Appropriately retaining record copies and disposing of reference copies requires agencies to designate clearly what position or office is required to maintain an official record for the duration of its designated retention period.

Transitory Records

Transitory records are defined as “record[s] that [have] little or no documentary or evidential value and that need not be set aside for future use.”²

North Carolina has a broad definition of public records. However, the Department of Natural and Cultural Resources recognizes that some records may have little or no long-term documentary or evidential value to the creating agency. These records are often called transitory records. They may be disposed of according to the guidance below. However, all public employees should be familiar with their appropriate retention schedule and any other applicable guidelines for their office. If there is a required retention period for these records, that requirement must be followed. When in doubt about whether a record is transitory or whether it has special significance or importance, retain the record in question and seek guidance from a DNCR records analyst.

Routing slips and transmittal sheets adding no information to that contained in the transmitted material have minimal value after the material has been successfully transmitted. These records may be destroyed or otherwise disposed of after receipt of the material has been confirmed. Similarly, “while you were out” slips, memory aids, and other records requesting follow-up actions (including voicemails and calendar invites) have minimal value once the official action these records are supporting has been completed and documented. These records may be destroyed or otherwise disposed of once the action has been resolved.

Drafts and working papers, including notes and calculations, are materials gathered or created to assist in the creation of another record. All drafts and working papers are public records subject to all provisions of Chapter 132 of the General Statutes, but many of them have minimal value after the final version of the record has been approved, and may be destroyed after final approval, if they are no longer necessary to support the analysis or conclusions of the official record. Drafts and working documents that may be destroyed after final approval include:

- Drafts and working papers for internal and external policies
- Drafts and working papers for internal administrative reports, such as daily and monthly activity reports;
- Drafts and working papers for internal, non-policy-level documents, such as informal workflows and manuals; and
- Drafts and working papers for presentations, workshops, and other explanations of agency policy that is already formally documented.

Forms used solely to create, update, or modify records in an electronic medium may be destroyed in office after completion of data entry and after all verification and quality control procedures, so long as these records are not required for audit or legal purposes. However, if the forms contain any analog components that are necessary to validate the information contained on them (e.g., a signature or notary’s seal), they must be retained according to the disposition instructions for the records series encompassing the forms’ function.

It is further agreed that these records may not be destroyed prior to the time periods stated; however, for sufficient reason they may be retained for longer periods. These schedules supersede previous versions of these schedules and any localized amendments; they are to remain in effect from the date of approval until they are reviewed and updated.

EXECUTIVE SUMMARY

- ✓ Some records are covered by the *General Records Schedule: Local Government Agencies* and, therefore, are not listed separately here.
- ✓ According to N.C. Gen. Stat. § 121-5(b) and N.C. Gen. Stat. § 132-3, you may destroy public records only with the consent of the Department of Natural and Cultural Resources (DNCR). The State Archives of North Carolina is the division of DNCR charged with administering a records management program. This schedule is the primary way the State Archives of North Carolina gives its consent. Without approving this schedule, your agency is obligated to obtain the State Archives of North Carolina's permission to destroy *any* record, no matter how insignificant.
- ✓ Each records series listed on this schedule has specific disposition instructions that will indicate how long the series must be kept in your office. In some cases, the disposition instructions are simply "retain in office permanently," which means that those records must be kept in your office forever. In other cases, the retention period may be "destroy in office when reference value ends." An agency may have reference copies of materials, meaning "a copy of a record distributed to make recipients aware of the content but not directing the recipient to take any action on the matter" (from Society of American Archivists, *Dictionary of Archives Terminology*). Your agency must establish and enforce internal policies by setting minimum retention periods for the records that the State Archives of North Carolina has scheduled with the disposition instructions, "destroy when reference value ends."
- ✓ E-mail is a record as defined by N.C. Gen. Stat. § 121-5 and N.C. Gen. Stat. § 132. It is the content of the e-mail that is critical when determining the retention period of a particular e-mail, including attachments, not the media in which the record was created. It is important for all agency employees and officials to determine the appropriate records series for specific e-mails and retain them according to the disposition instructions listed with the identified record series.
- ✓ The State Archives of North Carolina recommends that all agency employees and officials view the tutorials that are available online through the State Archives website in order to familiarize themselves with records management principles and practices. The State Archives of North Carolina's online tutorials include topics such as records management and scanning guidelines.
- ✓ The State Archives of North Carolina creates security preservation record copies for minutes and selected other records of governing bodies and commissions, adoption records, and maps and plats. Agencies can request copies of the digital images made during this process. Contact the appropriate Records Management Analyst to begin this process.
- ✓ If you have records that are not listed in this schedule, contact a Records Management Analyst. An analyst will discuss the nature of the records with you to determine if the records have historical value. If the records do not have historical value, we will ask you to complete a [Request for Disposal of Unscheduled Records](#) (page A-19) for records that are no longer being created.

LEGEND FOR RECORDS SCHEDULE

This records retention and disposition schedule applies to records in all media, unless otherwise specified.

– symbol designating that one or more records in this series may be confidential or Includes confidential information.

Item # – an identifying number assigned to each records series for ease of reference.

Series – “a group of similar records that are . . . related as the result of being created, received, or used in the same activity.” (From Society of American Archivists, *Dictionary of Archives Terminology*). Series in this schedule are based on common functions in government offices.

Records Series Title – a short identification of the records in a series, based on their common function.

Series Description – a longer description of the records in a series, often including the types of records that can frequently be found in that series. This information is included underneath the Records Series Title.

Disposition Instructions – instructions dictating the length of time a series must be retained and how the office should dispose of those records after that time.

Citation – a listing of references to statutes, laws, and codes related to the records series. Citations can include:

- Authority: governing the creation of records
- Confidentiality: limiting access to public records
- Retention: setting a retention period

Throughout this schedule, items that cross-reference other items within this schedule are indicated with a SEE ALSO reference. If you hover your cursor over one of these items, you will see the hand tool that will enable you to click on the item to follow the link to that location.

MANAGING PUBLIC RECORDS IN NORTH CAROLINA

Q. What is this “records retention and disposition schedule”?

- A.** This document is a tool for the employees of local government agencies across North Carolina to use when managing the records in their offices. It lists records commonly found in agency offices and gives an assessment of their value by indicating how long those records should be retained. This schedule is also an agreement between your agency and the State Archives of North Carolina.

This schedule serves as the inventory and schedule that the State Archives of North Carolina is directed by N.C. Gen. Stat. § 121-5(c) and N.C. Gen. Stat. § 132-8 to provide. It supersedes all previous editions, including all amendments.

Q. How do I get this schedule approved?

- A.** This schedule must be approved by your governing body for use in your agency. That approval should be made in a regular meeting and recorded as an action in the minutes. It may be done as part of the consent agenda, by resolution, or other action.

Q. Am I required to have all the records listed on this schedule?

- A.** No, this is not a list of records you must have in your office.

Q. What is “reference value”?

- A.** Items containing “reference value” in the disposition instructions are generally records that hold limited value, which is typically restricted to those documenting routine operations within the office. A minimum retention period should be established by the office for any items containing the phrase “destroy in office when reference value ends” in the disposition instructions.

Q. Do the standards correspond to the organizational structure of my agency?

- A.** Records series are grouped into standards to make it easier for users to locate records and their disposition instructions. You may find that the groupings reflect the organizational structure of your agency, or you may find that records are located in various standards depending on the content of the record. The intent of the schedule’s organization is to provide an easy reference guide for the records created in your agency.

Q. What if I cannot find some of my records on this schedule?

- A.** Sometimes the records are listed in a different standard than how you organize them in your office. Be sure to check the Index and utilize the search function on the PDF version of the schedule to facilitate the location of records series. If you still cannot locate your records on the schedule, contact a Records Management Analyst. We will work with you to amend this records schedule so that you may destroy records appropriately. The Request for Change in Records Schedule form (see page A-17) can be used for such requests.

Q. What are public records?

- A.** The *General Statutes of North Carolina*, Chapter 132, provides this definition of public records:
- “Public record” or “public records” shall mean all documents, papers, letters, maps, books, photographs, films, sound recordings, magnetic or other tapes, electronic data-processing records, artifacts, or other documentary material, regardless of physical form or

characteristics, made or received pursuant to law or ordinance in connection with the transaction of public business by any agency of North Carolina government or its subdivisions. Agency of North Carolina government or its subdivisions shall mean and include every public office, public officer or official (state or local, elected or appointed), institution, board, commission, bureau, council, department, authority or other unit of government of the state or of any county, unit, special district or other political subdivision of government.

Q. Is any person allowed to see my records?

- A.** Yes, except as restricted by specific provisions in state or federal law. N.C. Gen. Stat. § 132-6 instructs:

“Every custodian of public records shall permit any record in the custodian’s custody to be inspected and examined at reasonable times and under reasonable supervision by any person, and shall, as promptly as possible, furnish copies thereof upon payment of any fees as may be prescribed by law. ... No person requesting to inspect and examine public records, or to obtain copies thereof, shall be required to disclose the purpose or motive for the request.”

Q. What about my confidential records?

- A.** Not all government records are open to public inspection. Exceptions to the access requirements in N.C. Gen. Stat. § 132-6 and the definition of public records in N.C. Gen. Stat. § 132-1 are found throughout the General Statutes. You must be able to cite a specific provision in the General Statutes or federal law when you restrict or deny access to a particular record.

Q. Am I required to make available to the public copies of drafts that have not been approved?

- A.** Yes, even if a report, permit, or other record has not been finalized, it is still a public record subject to request. Any record that is not confidential by law must be provided when a request is received, whether it is “finished” or not.

Q. What do I do with permanent records?

- A.** Permanent records should be maintained in the office that created the records, forever.

The Department of Natural and Cultural Resources (DNCR) is charged by the General Assembly with the administration of a records management program (N.C. Gen. Stat. § 121-4 (2) and § 132-8.1) and the maintenance of “*a program for the selection and preservation of public records considered **essential** to the operation of government and to the **protection of the rights and interests of persons**”* (§ 132-8.2). Permanent records with these characteristics require preservation duplicates that are human-readable (paper or microfilm). Some examples of these characteristics include:

- Affect multiple people, without regard to relation
- Have significance over a long span of time
- Document governance
- Document citizenship

Examples of records with these characteristics:

- Minutes of governing bodies at the state and local levels are the basic evidence of our system of governance, and are routinely provided for the public to read.

- Records, such as deeds and tax scrolls, about land document changes in ownership and condition. Counties maintain offices expressly for the purpose of making those records available to the public. Other records in local and state governments document potential public health hazards, such as hazardous materials spills.
- Adoptions, marriages, and divorces document changes in familial relationships and document citizenship. Though adoptions are confidential (not available for public inspection), they document citizenship and changes in inheritance and familial succession.
- Court records, such as wills, estates, and capital cases, affect people within and across family groups, are made available for public inspection, and often involve transactions related to the examples above.

See the Human-Readable Preservation Duplicates policy issued by the North Carolina Department of Natural and Cultural Resources (<https://archives.ncdcr.gov/government/digital-records/digital-records-policies-and-guidelines/human-readable-preservation>) and check with a records analyst to determine whether your permanent records require a preservation duplicate.

Q. What is historical value?

- A.** Historical records document significant events, actions, decisions, conditions, relationships, and similar developments. These records have administrative, legal, fiscal, or evidential importance for the government or its citizens. Two criteria for determining historical value are inherent interest and extraordinary documentation:
- Inherent interest is created by non-routine events, by the involvement of famous parties, and by compelling contexts. For instance, foreclosure proceedings from the 1930s have high historical value because they date from the era of the Great Depression.
 - Extraordinary documentation is found in records that shed light on political, public, or social history. For instance, the records from the replevin case that returned the Bill of Rights to North Carolina hold more historical value than most property case files because of the political history intertwined with this case.

SANC has further elaborated selection criteria that help distinguish records with historical value:

- Do they protect the rights and property of citizens?
- Do they have a long-term impact on citizens?
- Do they document the core functions of an agency?
- Do they document high-level decision-making that shapes an agency's policies or initiatives?
- Do they summarize an agency's activities?

Call a Records Management Analyst for further assistance in assessing historical value.

Q. What if I do not have any records?

- A.** Nearly every position in government generates, receives, or uses records. Computer files of any kind, including drafts and e-mail, are public records. Even if your records are not the official or final version, your records are public records. Not all records have high historical, legal, or fiscal value, but they all must be destroyed in accordance with the provisions of the appropriate records schedule.

Q. I have a lot of unsorted records. What's a good first step for getting a handle on these records?

- A.** We encourage you to create a file plan of what records you have. When you create this plan, you can match each record to its placement on this schedule or on the appropriate retention schedule. A sample file plan is available on Page A-21. Having a file plan can help you strategize how to best organize your physical or digital records. A file plan is also useful in disaster planning and scheduling destructions.

Q. May I store our unused records in the basement, attic, shed, etc.?

- A.** Public records are public property. Though we encourage agencies to find places to store records that do not take up too much valuable office space, the selected space should be dry, secure, and free from pests and mold. Your office must ensure that records stored away from your main office area are well protected from natural and man-made problems while remaining readily available to your staff and the public.

Q. Our old records are stored in the attic, basement, or off-site building, etc. Are we required to provide public access to these records?

- A.** Yes, as long as the records are not confidential by law. You should also be aware that confidentiality can expire.

Q. Aren't all our old records at the State Archives of North Carolina?

- A.** Probably not. The State Archives of North Carolina collects only very specific types of records from local government offices. Contact a Records Management Analyst for more information about which records are held or can be transferred to the State Archives of North Carolina for permanent preservation.

Q. I found some really old records. What should I do with them?

- A.** Call a Records Management Analyst. We will help you examine the records and assess their historical value.

Q. Can I give my old records to the historical society or public library?

- A.** Before you offer any record to a historical society, public library, or any other entity, you must contact a Records Management Analyst. Permanent records must be kept either in your offices or at the State Archives of North Carolina.

Q. Whom can I call with questions?

- A.** If you are located west of Statesville, call our Western Office in Asheville at (828) 250-3103. If you are east of Statesville, all the way to the coast, call our Raleigh office at (919) 814-6900.

AUDITS, LITIGATION, AND OTHER OFFICIAL ACTION

Q. Why is there an asterisk in the disposition instructions of so many items on this schedule?

A. No record involved in a pending or ongoing audit, legal, or other official action may be destroyed before that audit or action is resolved.

A legal hold or litigation hold means that records that are the subject of the legal hold or litigation hold must be preserved and thus must not be destroyed until officially released from the hold. A legal hold or litigation hold is placed when either an official discovery order is served on the agency requesting the production of the records in question (for a litigation, regulatory investigation, audit, open records request, etc.) or litigation is pending and the agency is thus on notice to preserve all potentially relevant records. You must also ensure that for a claim or litigation that appears to be reasonably foreseeable or anticipated but not yet initiated, any records (in paper or electronic formats) relevant to such a claim or litigation are preserved and not destroyed until released by your General Counsel. The records in question must not be destroyed until the completion of the action and the resolution of all issues that arise from it regardless of the retention period set forth in this schedule.

We have used an asterisk (*) in the disposition instructions to mark records series that are commonly audited, litigated, or may be subject to other official actions. However, any record has this potential. Records custodians are responsible for being aware of potential actions, and for preventing the destruction of any record that is, or may be reasonably expected to become, involved in an audit, legal, or other official action.

Records used during routine audits may be destroyed when the governing body accepts the audit, if the records have completed the retention period listed in this schedule. If time remains in the retention period, the records must be maintained for the remainder of the period. The auditor's working papers must be kept according to the schedule. (See also GENERAL RECORDS SCHEDULE: LOCAL GOVERNMENT AGENCIES, Audits: Performance, STANDARD 1: ADMINISTRATION AND MANAGEMENT RECORDS, Audits: Financial, STANDARD 2: BUDGET, FISCAL, AND PAYROLL RECORDS.) Should a dispute arise over an audit, the records that were audited should be retained until that dispute is resolved.

The attorney representing the agency should inform records custodians when legal matters are concluded and records will no longer be needed. Following the conclusion of any legal action, the records may be destroyed if they have met the retention period in the schedule. Otherwise, they should be kept for the remaining time period.

TRANSITORY RECORDS

Transitory records are defined as “record[s] that [have] little or no documentary or evidential value and that need not be set aside for future use.”³

According to North Carolina General Statutes § 121 and § 132, every document, paper, letter, map, book, photograph, film, sound recording, magnetic or other tape, electronic data processing record, artifact, or other documentary material, regardless of physical form or characteristics, made or received in connection with the transaction of public business by any state, county, municipal agency, or other political subdivision of government is considered a public record and may not be disposed of, erased, or destroyed without specific approval from the Department of Natural and Cultural Resources.

The Department of Natural and Cultural Resources recognizes that some records may have little or no long-term documentary or evidential value to the creating agency. These records are often called “transitory records.” The following questions and answers discuss types of transitory records commonly created in state government. They may be disposed of according to the guidance below. However, all public employees should be familiar with the General Records Schedule for Local Government Agencies, their office’s Program Records Retention and Disposition Schedule, and any other applicable guidelines for their office. If any of these documents require a different retention period for these records, follow the longer of the two retention periods. When in doubt about whether a record is transitory, or whether it has special significance or importance, retain the record in question and seek guidance from the analyst assigned to your agency.

Q. What do I do with routing slips, fax cover sheets, “while you were out” slips, memory aids, etc.?

- A.** Routing slips and transmittal sheets adding no information to that contained in the transmitted material have minimal value after the material has been successfully transmitted. These records may be destroyed or otherwise disposed of after receipt of the material has been confirmed.

Similarly, “while you were out” slips, memory aids, and other records requesting follow-up actions (including voicemails) have minimal value once the official action these records are supporting has been completed and documented. Unless they are listed on the General Records Schedule for Local Government Agencies or your office’s Program Records Retention and Disposition Schedule, these records may be destroyed or otherwise disposed of once the action has been resolved.

Q. What about research materials, drafts, and other working papers used to create a final, official record?

- A.** Drafts and working papers are materials, including notes and calculations, gathered or created to assist in the creation of another record. All drafts and working papers are public records subject to all provisions of General Statute § 132, but many of them have minimal value after the final version of the record has been approved, and may be destroyed after final approval, if they are no longer necessary to support the analysis or conclusions of the official record. Drafts and working documents which may be destroyed after final approval include:

- Drafts and working papers for internal and external policies

³ Society of American Archivists, *Dictionary of Archives Terminology*.

- Drafts and working papers for internal administrative reports, such as daily and monthly activity reports
- Drafts and working papers for internal, non-policy-level documents, such as informal workflows and manuals; and
- Drafts and working papers for presentations, workshops, and other explanations of agency policy that are already formally documented.

Q. What if I have forms designed and used solely to create, update, or modify records in an electronic medium?

- A.** If these records are not required for audit or legal purposes, they may be destroyed in office after completion of data entry and after all verification and quality control procedures. However, if the forms contain any analog components that are necessary to validate the information contained on them (e.g. a signature or notary's seal), they should be retained according to the disposition instructions for the records series encompassing the forms' function.

See also the State Archives of North Carolina's guidance on digital signatures found at: <https://archives.ncdcr.gov/government/digital-records/digital-records-policies-and-guidelines/digital-signature-policy>

DESTRUCTION OF PUBLIC RECORDS

Q. When can I destroy records?

- A.** Each records series listed on this schedule has specific disposition instructions that indicate how long the series must be kept in your office. In some cases, the disposition instructions are “Retain in office permanently,” which means that those records must be kept in your offices forever.

Q. How do I destroy records?

- A.** After your agency has approved this records retention and disposition schedule, records should be destroyed in one of the following ways:
- 1) burned, unless prohibited by local ordinance;
 - 2) shredded, or torn so as to destroy the record content of the documents or material concerned;
 - 3) placed in acid vats so as to reduce the paper to pulp and to terminate the existence of the documents or materials concerned;
 - 4) sold as waste paper, provided that the purchaser agrees in writing that the documents or materials concerned will not be resold without pulverizing or shredding the documents so that the information contained within cannot be practicably read or reconstructed.

The provision that electronic records are to be destroyed means that the data, metadata, and physical media are to be overwritten, deleted, and unlinked so that the data and metadata may not be practicably reconstructed.

The data, metadata, and physical media containing confidential records of any format are to be destroyed in such a manner that the information cannot be read or reconstructed under any means.

— N.C. Administrative Code, Title 7, Chapter 4, Subchapter M, Section .0510

Without your agency’s approval of this records schedule, no records may legally be destroyed.

Q. How can I destroy records if they are not listed on this schedule?

- A.** Contact a Records Management Analyst. An analyst will discuss the nature of the records with you to determine if the records have historical value. If the records do have historical value, we will discuss the possibility of transferring the records to the State Archives of North Carolina to be preserved permanently.

If the records do not have historical value, we will ask you to complete a [Request for Disposal for Unscheduled Records](#) form if the records are no longer being created. If the records are an active records series, an analyst will help you develop an amendment to this schedule so that you can destroy the records appropriately from this point forward.

Q. *Am I required to tell anyone about the destructions?*

- A.** We recommend that you report on your records retention activities to your governing board on an annual basis. This report does not need to be detailed, but it is important that significant destructions be entered into the minutes of the Board. See a sample destructions log that follows (and is available online at the State Archives of North Carolina website, <https://archives.ncdcr.gov/government/rm-tools>).

ELECTRONIC RECORDS: E-MAIL, BORN-DIGITAL RECORDS, AND DIGITAL IMAGING

Q. When can I delete my e-mail?

- A.** E-mail is a public record as defined by N.C. Gen. Stat. § 121-5 and N.C. Gen. Stat. § 132. Electronic mail is as much a record as any paper record and must be treated in the same manner. **It is the content of each message that is important.** If a particular message would have been filed as a paper memo, it should still be filed (either in your e-mail program or in your regular directory structure), and it should be retained the same length of time as its paper counterparts. **It is inappropriate to destroy e-mail simply because storage limits have been reached.** Some examples of e-mail messages that are public records and therefore covered by this policy include:

- Policies or directives;
- Final drafts of reports and recommendations;
- Correspondence and memoranda related to official business;
- Work schedules and assignments;
- Meeting agendas or minutes
- Any document or message that initiates, facilitates, authorizes, or completes a business transaction; and
- Messages that create a precedent, such as issuing instructions and advice.

*From the Department of Cultural Resources E-Mail Policy (Revised July 2009),
available at the State Archives of North Carolina website*

Other publications (available online at the [State Archives of North Carolina website](#)) that will be particularly helpful in managing your e-mail include tutorials on managing e-mail as a public record and on using Microsoft Exchange.

Q. May I print my e-mail to file it?

- A.** We do not recommend printing e-mail for preservation purposes. Important metadata are lost when e-mail is printed.

Q. I use my personal e-mail account for work. No one can see my personal e-mail, right?

- A.** The best practice is to avoid using personal resources, including private e-mail accounts, for public business. N.C. Gen. Stat. § 132-1 states that records “made or received pursuant to law or ordinance *in connection with the transaction of public business* by any agency of North Carolina government or its subdivisions” are public records (emphasis added). The fact that public records reside in a personal e-mail account is irrelevant.

Q. We have an imaging system. Are we required to keep the paper?

- A.** You may scan any record, but you will need to receive approval from the Government Records Section in order to destroy paper originals that have been digitized. Your agency must develop an electronic records policy and then submit a Request for Disposal of Original Records Duplicated by Electronic Means. You can find these templates in the Digital Imaging section of the State Archives of North Carolina website (<https://archives.ncdcr.gov/government/digital-records/digital-records-policies-and-guidelines#digital-imaging>). Contact a Records Management Analyst for further instructions on how to develop a compliant electronic records policy.

Permanent records must have a security preservation copy as defined by State Archives of North Carolina's [Human-Readable Preservation Duplicate Policy](#) (N.C. Gen. Stat. § 132-8.2):

Preservation duplicates shall be durable, accurate, complete and clear, and such duplicates made by a photographic, photo static, microfilm, micro card, miniature photographic, or other process which accurately reproduces and forms a durable medium for so reproducing the original shall have the same force and effect for all purposes as the original record whether the original record is in existence or not. ... Such preservation duplicates shall be preserved in the place and manner of safekeeping prescribed by the Department of Natural and Cultural Resources.

The preservation duplicate of permanent records must be either on paper or microfilm.

Non-permanent records may be retained in any format. You will need to take precautions with electronic records that you must keep more than about 5 years. Computer systems do not have long life cycles. Each time you change computer systems, you must convert all records to the new system so that you can assure their preservation and provide access.

Q. Computer storage is cheap. Can I just keep my computer records permanently?

- A.** The best practice is to destroy all records that have met their retention requirements, regardless of format.

Q. What are the guidelines regarding the creation and handling of electronic public records, including text messages and social media?

- A.** There are numerous documents available on the State Archives of North Carolina website (<https://archives.ncdcr.gov/government/digital-records/digital-records-policies-and-guidelines>). Topics covered include shared storage, cloud computing, e-discovery, trustworthy digital public records, digital signatures, e-mail, social media, text messages, websites, digital imaging, metadata, file formats, database indexing, and security backups.

Note that e-mail, text messages, and social media should be handled according to their content. Therefore, this schedule does not include a records series that instructs you on how to handle one of these born-digital records by format; instead of focusing on how the information is disseminated, consider what content is contained in the e-mail, text message, or social media post. For instance, an e-mail requesting leave that is sent to a supervisor should be kept for 3 years. On the General Records Schedule: Local Government Agencies, see Leave Records (Standard 4: HUMAN RESOURCES RECORDS).

GEOSPATIAL RECORDS

Q. Why should geographic information system (GIS) datasets be retained and preserved?

- A.** Geospatial records are public records and need to be retained and preserved based on their legal, fiscal, evidential and/or historical value according to an established retention schedule. Local agencies involved in GIS operations should work with the State Archives of North Carolina in order to appraise, inventory, and preserve their geospatial records according to established best practices and standards to insure both their short- and long-term accessibility.

Due to the complexity and transitory nature of these records, geospatial records retention and long-term preservation is a community-wide challenge. GIS files have become essential to the function of many local agencies and will continue to frequently be utilized in agency decision-making processes in the near and far future. Accessibility of GIS records over time has legal, fiscal, practical, and historical implications. The availability of GIS records can help safeguard the local government's legal and fiscal accountability and aid agencies in conducting retrospective and prospective studies. These studies are only possible when essential data from the past are still available.

Q. What GIS datasets should be preserved by local governments?

- A.** The following types of geospatial records have been designated as having archival value:
- Parcel data
 - Street centerline data
 - Corporate limits data
 - Extraterritorial jurisdiction data
 - Zoning data, address points
 - Orthophotography (imagery)
 - Utilities
 - Emergency/E-911 themes

For more information, see **GENERAL RECORDS SCHEDULE: LOCAL GOVERNMENT AGENCIES, STANDARD 3: GEOGRAPHIC INFORMATION SYSTEM (GIS) RECORDS**.

Q. How often should we capture the datasets retained for their legal, fiscal, evidential or historical value?

- A.** Consult the retention schedule for frequency of capture. The frequency of capture is based on the significance of the record as well as its alterability.

Q. What data formats, compression formats, and media should be used to preserve the data?

- A.** Archiving practices should be consistent with North Carolina Geographic Information Coordinating Council (GICC) approved standards and recommendations. (Examples: Content Standards for Metadata; Data Sharing Recommendations). Consult the GICC website at <https://it.nc.gov/about/boards-commissions/gicc>.

You should also comply with guidelines and standards issued by the State Archives of North Carolina, which are available on its website.

Q. Who should be responsible for creation and long-term storage of archived data?

- A.** The creating agency, NCOneMap, and the State Archives of North Carolina may all have responsibility for archiving data. If you choose to upload your data to NCOneMap, consult with your county's GIS department to determine whether data will be uploaded by your agency or by the whole county. If you choose not to upload your data to NCOneMap, your agency must comply with standards (for metadata, file naming, data sharing, and long term preservation) and procedures adopted by the North Carolina Geographic Information Coordinating Council.

SECURITY PRESERVATION COPIES OF RECORDS

Q. What is the advantage to having security preservation copies of records stored with the State Archives?

- A.** Having duplicate copies of essential records in a separate location mitigates the risk that you may lose the only physical copy of a given record in a disaster or other records loss event. Maintaining offsite duplicates of records, regardless of format, is a good practice to adopt.

The State Archives creates duplicate copies on microfilm because of the durability of the medium. Silver negative microfilm does not decay for hundreds of years, ensuring that your records maintain their integrity over time.

Q. What records will the State Archives back up for us?

- A.** The State Archives provides security imaging services for minutes of major decision-making boards and commissions. We will also image records of adoptions for Social Services agencies as well as maps and plats from Registers of Deeds offices. Once those records are imaged, they are converted to security microfilm. We will store the silver negative (original) microfilm in our security vault. Contact the Records Management Analyst in charge of imaging coordination for the most current information.
-

Q. How do I start the process of backing up the above listed records?

- A.** We have three processes for creating backup film copies of these records. First, you can send photocopies of your approved minutes to us in the mail. Simply include a copy of the **Certification of the Preparation of Records for Security Preservation Copy** form (available online at the [State Archives of North Carolina website](#)) with each shipment. For more detailed instructions, contact a Records Management Analyst.

Secondly, you can bring us your original books. We will film them and return them to you. This process is most useful when you have more minutes to film than you are willing to photocopy. It is important to remember that a representative of your office or ours must transport the original books in person so that the custody of the records is maintained. You should not mail or ship your original minutes. Contact the Records Management Analyst in charge of imaging coordination to schedule an appointment for your books to be imaged. We will make every effort to expedite the filming so that your books will be returned to you as quickly as possible.

Finally, you can submit these records to the State Archives electronically. Please see our procedures in "[Transfer of Minutes in Digital Formats for Microfilming](#)" or contact the Records Management Analyst in charge of imaging coordination for more information.

Q. In the event of a records loss, how do I obtain copies of the security preservation copies stored at the State Archives?

- A.** Contact the Records Management Analyst in charge of imaging coordination who will help you purchase copies of the microfilm from our office. You can then send those reels to a vendor who can either make new printed books or scan the film to create a digital copy.

Q. Can I obtain digital copies of the security preservation records?

- A.** Yes, you can request digital copies of records when you submit them to the State Archives for initial reproduction. Contact the Records Management Analyst in charge of imaging coordination to initiate a request for digital duplicates.

DISASTER ASSISTANCE

Q. What should I do in case of fire or flood?

- A.** Secure the area, and keep everyone out until fire or other safety professionals allow entry. Then, call our Raleigh office at (919) 814-6903 for the Head of the Government Records Section or (919) 814-6849 for the Head of the Collections Management Branch. If you're in the western part of the state, call our Asheville Office at (828) 250-3103. On nights and weekends, call your local emergency management office.

DO NOT ATTEMPT TO MOVE OR CLEAN ANY RECORDS.

Damaged records are extremely fragile and require careful handling. Our staff are trained in preliminary recovery techniques, documenting damage to your records, and authorizing destruction of damaged records. Professional vendors can handle larger disasters.

Q. What help do you give in case of an emergency?

- A.** We will do everything we can to visit you at the earliest opportunity in order to provide hands-on assistance. We can assist you in appraising the records that have been damaged so that precious resources (and especially time) are not spent on records with lesser value. We can provide lists of professional recovery vendors that you can contact to preserve your essential and permanent records.
-

Q. What can I do to prepare for an emergency?

- A.** We provide training on disaster preparation that includes a discussion of the roles of proper inventories, staff training, and advance contracts with recovery vendors. If you would like to have this workshop presented, call a Records Management Analyst.
-

Q. What are essential records?

- A.** Essential records are records that are necessary for continuity of operations in the event of a disaster. There are two common categories of records that are considered essential:
- **Emergency operating records** – including emergency plans and directives, orders of succession, delegations of authority, staffing assignments, selected program records needed to continue the most critical agency operations, as well as related policy or procedural records.
 - **Legal and financial rights records** – these protect the legal and financial rights of the Government and of the individuals directly affected by its activities. Examples include accounts receivable records, Social Security records, payroll records, retirement records, and insurance records. These records were formerly defined as “rights-and-interests” records.

Essential records should be stored in safe, secure locations as well as duplicated and stored off-site, if possible.

STAFF TRAINING

Q. What types of workshops or training do you offer?

- A.** We have a group of prepared workshops that we can offer at any time at various locations throughout the state. Contact a Records Management Analyst if you are interested in having one of the workshops presented to your agency. We will work with you directly to develop training suited to your specific needs. Our basic workshops are:
- Managing public records in North Carolina
 - Disaster preparedness and recovery
 - Digital communications

Q. Will you design a workshop especially for our office?

- A.** Yes, we will. Let a Records Management Analyst know what type of training you need.

Q. Are workshops offered only in Raleigh?

- A.** No, we will come to your offices to present the workshops you need. We have no minimum audience requirement. We will also do presentations for professional associations, regional consortiums, and the public.

To arrange a workshop, please call the State Records Center at 919-814-6900 or contact a Records Management Analyst (<https://archives.ncdcr.gov/government/local/analysts>).

Q. Is there a fee for workshops?

- A.** Not at this time.

Q. Are the workshops available in an online format?

- A.** We can offer a virtual workshop for your agency upon request. For descriptions of available webinars, see <https://archives.ncdcr.gov/government/training/webinars>. You can also find several online tutorials available on the State Archives of North Carolina website (<https://archives.ncdcr.gov/government/training/online-tutorials-and-resources>).

Request for Change in Local Government Records Schedule

Use this form to request a change in the records retention and disposition schedule governing the records of your agency. Submit the signed original and keep a copy for your file. A proposed amendment will be prepared and submitted to the appropriate state and local officials for their approval and signature. Copies of the signed amendment will be sent to you for insertion in your copy of the schedule.

**DISCUSS AND CONSIDER RESOLUTION #22-05 AMENDING THE
VILLAGE POLICY REGARDING TERM LIMITS FOR APPOINTED
BOARDS AND COMMISSIONS
ADDITIONAL AGENDA DETAILS:**

MEMO DETAILS:

Village staff is reviewing existing Village Council policies to determine updates or recommended changes. Staff recently reviewed the Village's established Council policy regarding term limits for appointees to Village boards and commissions. We recommend two minor adjustments. First, that the policy be updated to include the Historical Preservation Commission. And second, that the name of the Community Appearance Commission be updated to the Beautification Committee. These minor changes will make the term limits policy consistent with the other governing documents of these Boards or Commissions.

Re: Projected Year-End Financial Results and Budget Amendment

Projected Year-End Financial Results

Based upon my review of the quarterly financial statements through the end of December and discussions with Senior Management and Department Heads, I have formulated my estimate of the Village's projected year-end financial results. At this time, I estimate that the Village's expenditures will exceed its revenues at year-end by approximately \$172,000. Although this is a loss, it is important to recall that we originally planned to use \$871,000 of fund balance in FY 2022 when the budget was adopted. As discussed below, several revenues have exceeded our projections so far this fiscal year. Also, the projected expenditures include a large reappropriation of approximately \$1.4 million related to purchases and projects that were incomplete as of June 30, 2021 and continued into FY 2022.

Total fund balance for the General Fund at the beginning of this fiscal year was \$13,289,000. I am projecting that fund balance will decrease to \$13,116,000 by the close of this fiscal year. This estimate will leave the ending fund balance for the General Fund at 51% of budgeted expenditures. This percentage is above our policy minimum and positions us well to address initiatives identified in the FY 2023 Village Council Strategic Planning Retreat.

Budget Amendment

When evaluating our projected actual amounts compared to the current budget, I identified several of the more significant items that have deviated from our original budget projections. We propose the Village revise the budget estimates for these items in an effort to bring the budgeted amounts closer to expected levels. I have detailed the proposed changes below:

Revenues

- We project motor vehicle property tax revenues to be slightly higher than originally anticipated. These projections are based on the taxes collected to date. We recommend increasing motor vehicle tax revenues by \$31,000.
- Actual local option sales taxes and their related hold harmless reimbursements have been significantly higher than anticipated due to a variety of factors, including the collection of sales tax on online purchases. As such, these revenues are projected to be higher than budgeted. We recommend increasing sales taxes by \$630,000 and the hold harmless reimbursements by \$140,000.

- Miscellaneous revenue is higher than projected primarily due to a one-time easement payment from Verizon, as well as the sale of surplus items that are not capital assets. An increase of \$11,000 is recommended for this revenue source.
- Upon adoption of the FY 2022 North Carolina state budget in November, the NC Department of Transportation (NC DOT) Powell Bill program funding was significantly increased. In FY 2021, Powell Bill funding was reduced due to constraints surrounding COVID-19. This year's allocation restored, and actually surpassed, pre-COVID Powell Bill program funding levels. We received approximately \$103,000 more than originally anticipated, thus we recommend increasing revenue by this amount.
- Facility rental revenues are higher than expected this year. This is due to more park rentals and increased use of our athletic fields. An increase of \$24,000 is recommended for this revenue.
- Fair Barn rentals and reservations have returned to pre-pandemic levels, and revenues through the second quarter are comparable to the same period in FYs 2019 and 2020. After reviewing actual collections, staff expects to end the year near \$225,000, or \$38,500 higher than the budgeted figure.
- We received several significant insurance reimbursements for damaged vehicles this year. We recommend increasing our revenue estimate by \$65,000 and increasing the related expenditure budgets, as mentioned below.
- ABC revenues are higher than expected this year. An increase of \$20,000 is recommended for ABC revenue on mixed beverages and an increase of \$50,000 for ABC revenue on counter sales.
- When developing the FY 2022 budget, the Village originally anticipated assuming responsibility for Given Memorial Library and Tufts Archives in October. The Village and the Library Board continued conversations and established a final transfer date by April 15, 2022. As such, we recommend the following revenue adjustments to reflect this date change: reduce archives book and photo sales by \$13,000, Roast Office rental income by \$10,800, event income by \$52,500, donations by \$112,300, and endowment income by \$37,500. We also recommend decreasing operating expenditures as mentioned below.

Expenditures

- In Human Resources, \$50,000 was originally appropriated for salary market adjustments. When the market adjustments for FY 2022 were implemented, it was determined that they could be absorbed within the affected departments due to various position changes and temporary vacancies. We are recommending removing the \$50,000 appropriation from the budget.
- In Solid Waste, we request increasing the contracted services expenditure budget by \$35,000 to cover increased contracted yard debris clean-up services after multiple winter storms.
- In Community Development, we request increasing the departmental supplies budget by \$6,500 to purchase additional logo merchandise inventory to sell at the Welcome Center. During the FY 2022 budget process, we increased our revenue projection for logo merchandise sales, but did not increase the expenditure budget to purchase additional items. Revenue is in line with our projections so far this year.
- In the Library & Archives Department, operating expenditures will begin approximately six months later than originally expected. As such, we recommend decreasing salaries and

benefits accounts by \$89,000, departmental supplies by \$5,000, collection expenses by \$8,000, events expenses by \$15,000, and rentals by \$20,000.

- In Fleet Maintenance, we recommend increasing the vehicle repairs and maintenance account by \$65,000 for significant repairs performed on various vehicles this year. Several of these repairs were reimbursed by insurance proceeds as mentioned earlier. The related Fire, Solid Waste, Recreation, Harness Track, and Planning Department allocation accounts have been adjusted accordingly.
- In Buildings & Grounds, we recommend reducing the maintenance account by \$20,000, as library operating expenditures are approximately six months less than originally anticipated. The related Library & Archives Department allocation account has been adjusted accordingly.

In total, these adjustments will decrease the Village's FY 2022 Budget by \$100,500 and will reduce fund balance appropriated by \$986,900. Adopting the above adjustments within the revenue and expenditure accounts will enable the Village to prepare more accurate budget estimates for the next fiscal year and maintain statutory compliance required by the Local Government Budget and Fiscal Control Act.

As we enter the strategic planning and budgeting season, the Village is well positioned to carry out the objectives in our Strategic Operating Plan. The Village continues to remain in a solid financial position because of our conservative financial policies, good financial planning, and diligent budget oversight. Should you have any questions, please feel free to contact me.

FY 2022 Strategic Operating Plan Overview

Village Council

Each year, the Pinehurst Village Council adopts a Strategic Operating Plan, which indicates the Village's plans to achieve our vision and mission. The Strategic Operating Plan covers the fiscal year that begins on July 1 and includes a five-year financial plan.

Vision, Mission, and Values

The vision is what the Village intends to be, and the mission is what the Village must do to achieve that vision. The Village's core values are the guiding principles and behaviors that embody how Village employees and volunteers are expected to operate as they provide services.

Balanced Scorecard

The Village uses a Balanced Scorecard (BSC) to integrate strategic planning and resource allocation. The BSC contains goals, objectives, and key performance indicators in four perspectives to ensure a balanced approach to evaluating the achievement of organizational strategy:

1. Customer
2. Internal
3. Workforce
4. Financial

FY 2022 Balanced Scorecard

FY 2022 Goals

The FY 2022 Balanced Scorecard contains 9 strategic goals in the four perspectives.

FY 2022 Areas of Focus

Each balanced scorecard goal has one or more strategic objectives. Strategic objectives indicate how we will achieve the Village goals. In FY 2022, the Village Council identified three strategic objectives as Areas of Focus:

1. Manage development and enforce codes and ordinances
2. Support the business community
3. Provide a safe and effective multi-modal transportation system

FY 2022-2026 Strategic Objectives

We define strategic objectives as prospects for new or changed services or processes. The Village Council prioritizes the list of strategic objectives identified in the annual Strategic Planning Retreat. Below is a list of OFIs addressing strategic objectives included in the five-year financial forecast (FY 2022-2026).

FY 2022 OFIs that address Strat. Opportunities	OFI	Years	Notes
